Religious Science Church To Hear Prayer Authority

Stella Terrill Mann, writer and lecturer from Pasadena, will give a series of three lectures at the Redondo Beach Church of Religious Science, Masonic Temple, Ruby and Catalina, Redondo Beach, at 11 a.m., Sundays, July 14, 21, and 28, on the nature and power of prayer.
 Mrs. Mann has devoted more than 30 years of research to this subject. Her laboratory is the human heart, people with problems.
 Mrs. Mann is the author of many works, including four books published by Dodd, Mead and Co. They are "Change Your Life Through Prayer," "Change Your Life Through Love," "Change Your Life Through Faith and Work," and "How to Use the Power of Your Word." These are largely case histories of people she worked with.
Prayer Misunderstood
 "Prayer is the greatest force and most immediate help known to man for working out his daily problem in life," says Mrs. Mann. "But because its real nature is so little understood most people give up hope after a few frustrating efforts. If man had used the same unscientific methods of understanding the power of gravity and of electricity that he uses with the power of prayer, civilization would still be in the pre-cave age."
 Mrs. Mann once made a survey in a church and not one member there, including the minister, she says, could give the 12 points of the power of prayer. "Yet all are given in the Bible. It takes hunting, comparison, research, to get them together, in working order. Not easy to do. One lifetime is not too long to devote to this one subject-prayer," she said.
 Mrs. Mann is the wife of Herbert P. Mann, architect and engineer, head of his corporation, Herbert J. Mann & Associates, building consultants.
 Some of Mrs. Mann's books are published in England and others in Japan. Her work has brought high praise from such religious leaders as Dr. Norman Vincent Peale and Dr. Ralph W. Sockman. Business men, including Roger W. Babson, use her books in their organizations as employe and public relation helps.
