AN EARLY MODEL . . . An unidentified pilot is set to drive his late-model car away from the agency in this ancient picture dug up by Charlie Rule of Harbor Motors. They send them away with a different looking auto today.

THE LATEST MODEL . . . Owner Charlie Rule of Harbor Motor Co. shows one of the latest models of Oldsmobile, designed and produced after 60 years of pioneering in the automobile business. They still sing "In My Merry Oldsmobile," however.

Family Visits By Phone Urged

"Family visits by 'Conference Calls' are proving more and more popular," H. C. Vaupel, manager of the Frontier number area said today. "It is not generally known," he explained, "that it is possible for all members of the same family to have a 'telephone visit' even when each lives in a different state. "By placing a 'Conference Call' — obtained through the Long Distance Operator — a kind of party line connection can be made from several dis-

tant points throughout the United States, most foreign countries, and even to ships at sea." "Such voice meetings bring the family together quickly and simply and for less cost than the total of the number of separate calls," Vaupel stated. Customers may obtain further information by calling the General Telephone Co. business office, Vaupel stated in conclusion.

Harbor Motor Co. Joins Sixtieth Anniversary Celebration of Olds

Harbor Motor Co. celebrates the 60th anniversary of Oldsmobile, America's oldest automobile manufacturer.

The automobile may be remembered by the old-timers as the racy, one-cylinder, curved dash runabout, which was immortalized by a popular song of its day or by the present generation as the car that pioneered the fully automatic transmission.

introduced in 1925 and by the 1932 the first automatic choke.

The present public will remember such recent firsts as the Hydra-Matic, automatic transmission, first hard-top and the high compression overhead V-8 engine.

From its humble beginning in 1897 as a hand tooled car, Oldsmobile on its 60th birthday has grown to a half million car a year producer.

In commemorating this anniversary, Charlie Rule, owner of Harbor Motor Co. spoke to the employees of the rich background of Oldsmobile, recalling the many firsts in its history.

In 1901, Oldsmobile established the first crude assembly line, the forerunner of the modern million car assembly line of today. Other firsts were the two- and four-cylinder engines, the first use of chrome
