**As I See It**

by Handy Andy

It's too bad old Christopher Columbus can't drop around and check up on the changes since he was here last. He really started something when he landed on October 12, 1492. He discovered a land he never knew existed ... and started the greatest one-way tourist trips in history. The tourists have been coming ever since ... and millions of us have stayed long enough to turn Columbus' beachhead into a pretty fair sized project.

The local philosopher points out that nothing is perfect. If you stay in bed until 10 o'clock it can sure ruin an afternoon nap ... You won't catch us napping when it comes to doing everything we possibly can to merit your continued patronage. We're wide awake to current trends and styles, and to your individual wants, for the best possible grooming of the hair—man's woman's or child's. You'll enjoy visiting Handy Andy's, 1104 Crenshaw Blvd.
