Laud American Savings, Loan Assn. Growth

Growth at six times the rate of the average savings and loan association over the last 10 years was cited as one of the significant accomplishments of American Savings and Loan at the association's annual employe dinner-dance, held last week end in the Venetian room of the Ambassador Hotel.

Among those who joined American's employes in paying tribute to their president, S. Mark Taper, were County Supervisor Frank G. Bonelli and William N. Purmot, assistant vice president of the Federal Home Loan Bank of San Francisco.

Taper's contributions to the growth and progress of Los Angeles County through his leadership of American Savings were highlighted by Bonelli. Purmort pointed out that American Savings' current resources of $180 millian were a "rather fanstastic" increase of more than 2000 per cent during the 10 years in which he has been associated with the Home Loan Bank, and also said that just the interest paid to American accountholders in 1958 amounted to more than the entire savings total of the association in 1948.

Edward L. Johnson, executive vice president and managing officer of American Savings, called the progress of recent years a "growth in strength", and said that American's reserves of more than $15 million are over twice the federal requirement for savings and loan associations.

Lucky Stores To Build 26 New Markets

An accelerated program of supermarket construction and the expansion of the firm's real estate department were announced this week by J. C. Ernst, board chairman of Lucky Stores, Inc., at San Leandro.

The West Coast supermarket chain plans to complete 26 new stores representing a capital investment of approximately $14,300,000 during the year. These stores, when completed, should increase Lucky's annual sales by more than $40,000,000 Ernst said.

Douglas N. Day, a Lucky Stores vice president and director, has been appointed to head the firm's expanded real estate department.

The accelerated construction program is expected to bring Lucky Stores to a total of 130 supermarkets in Pacific Coast cities from San Diego to Seattle by the end of 1959. A few small, outmoded stores will be closed during the year, Ernst said.

The new stores, plus six Los Angeles area supermarkets acquired by Lucky in January, are expected to bring the food chain's annual sales rate to more than $200,000,000 by the end of 1959. Sales during 1958 totaled $141,512,000.

ELAPSED TIME

The time that elapses between the beats of the average human heart amounts to about six hours per day.
