Living Proof
Editor, Torrance Herald
Your fine presentation of an example of cardiac rehabilitation in the HERALD Jan. 18, 1959, will be used as a model for advancing public education in this field in the future.
Similar presentations of "living proof" that cardiacs can work will be prepared by the Heart Assn. in other communities during the next several weeks, each dealing with men who have returned to their jobs after heart attacks.
Reprints of the Torrance HERALD article were distributed to 1279 labor unions in this county, to the 100 members of the Board of Directors, and to more than 100 major industries. We have received many fine comments.
To you and to Robert Wilton whose cooperation with the Heart Assn. staff made this presentation possible, I extend the gratitude of the officers and members of the board of directors.
GEORGE C. GRIFFITH, M.D.
President, Heart Assn.
