...Crash
 (Continued from Page 1)
 the first impact of the crashing plane, told the HERALD she was talking on the telephone with Mrs. Mary Andreoli, who lives at 3118 Odando, when she heard the low plane. "I told Mary (Mrs. Andreoli) that it sounded like the plane was going to crash," she told the HERALD. About the time the plane struck the house, cutting the phone lines.
 "I COULD hear the roar of the plane very loud," Mrs. Andreoli said. "I heard Mrs. Crew say something about a plane, then that was all." Mrs. Andreoli rushed to the Crew home to see what had happened.
 "I started to rush out to see what had happened, when I remembered the baby sleeping

in the next room so I rushed back," Mrs. Crew said. The baby slept through it all.

TELEPHONE lineman George Millan was working on a pole just east of the crash scene. "That's too close," he commented later. He witnessed the entire event from his elevated perch.
 Police and officials of the Federal Aviation Agency here are continuing their investigation of the plane wreckage and the crash scene to determine the exact cause of the crash.
COMMON CROP
 American farmers grow more than 18 million acres of alfalfa each year. About 50 years ago it was an uncommon crop with an annual planting of about two million acres.

WRECKED PLANE . . . The light Ercoupe piloted by Aubrey L. Devenish of Hawthorne was completely demolished when he set it down in the back yard of the Timothy W. Williams home, 2071 Middlebrook Road, Friday afternoon. Workmen remodeling a home nearby vaulted fences to pull the pilot from the wreckage. (Herald photo)

...Workers
 (Continued from Page 1)
 with the performance of city work.
 3. The time schedule for outside work would in no way interfere with that of city work, nor would the location of outside work prevent response of an employee subject to emergency calls.
 4. That outside work shall be considered a "privilege" and not a "right."
 5. That no more than an absolute maximum of 16 hours of other than city employment may be worked during any seven (7) day week.

6. That employes shall be required to furnish to the city (a) a statement and proof from the employer that he has adequate workmen's compensation insurance coverage in his outside employment; (b) a statement from the employer indicating that no other person is available for the job; (c) a statement from the employer or employer that the work is part-time and temporary; and (d) a statement indicating the nature of the work, the location, and proposed schedule.
 The department head of the employe would evaluate the request and make a recom-

mendation to the City Manager for approval.
 The personnel committee also will recommend to the council that the city manager study fire department schedules and report on "the efficiencies and costs which could be realized if an eight-hour shift or other reductions in work hours per week were to be effected."
BAY AREA
 Hudson's bay in Canada is 900 miles long and 500 miles wide. It has a greater water area by four times than that of all of the Great lakes combined, engineering surveys show.
