

Enlarged Library Facilities Planned for Gardena Area

Greatly enlarged and expanded library facilities are soon to be made available for Gardena and adjacent communities, Supervisor Kenneth Hahn announced this week, as the Board of Supervisors approved a 10 year lease for a new branch library to be located at 15709 Crenshaw Blvd.

The building which the branch library will occupy is now under construction as part of a shopping center north of El Camino College. The lease will become effective when the building is ready for occupancy in about 60 days, Supervisor Hahn said.

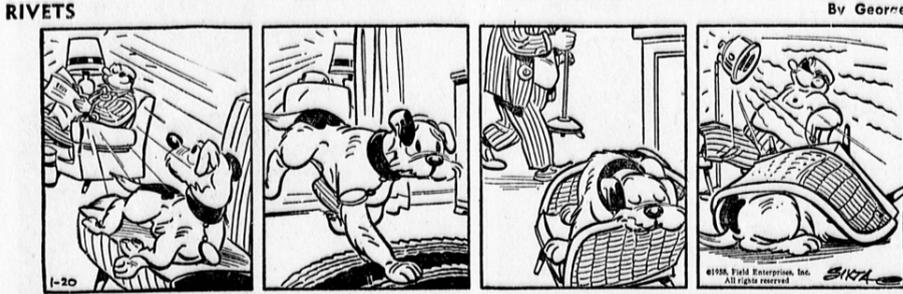

The new county library building is to be a one-story structure containing 4000 square feet. It will be specially finished and equipped to provide efficient library services. Ample public parking will be available in conjunction with the shopping center.

Supervisor Hahn stated that special modern library lighting will be provided as well as asphalt tile floors, acoustic tile ceiling, and heating and ventilation.

It will be used to replace the Moneta branch library, located in cramped, inadequate quarters at 16432 Western Ave.

Located a block north of El Camino College, the new library will be of assistance to the students there as well as serving the residents of Gardena, El Camino area, north Torrance, Lawndale, Hawthorne, and adjacent communities, Supervisor Hahn said.
