

Regional Planners Give Approval to Science City

Plans for development of a 410-acre "science city" in Rolling Hills was given the green light this week by the County Regional Planning Commission.

Request of the Great Lakes Carbon Corp. for a change of zone to permit the development was approved by the planners. The Great Lakes firm has announced plans for a multi-million-dollar project near Crest Rd. and Crenshaw for use as a research and development center.

Approximately 200 acres of land adjacent to the proposed center was rezoned for commercial and apartment use. There were no protests made at the hearing.

10 New YMCA Clubs Scheduled at Schools

New YMCA Clubs and Clubs and Tribes for boys and their fathers will be formed in 10 Torrance schools during February.

The extensive expansion program is a result of the rapidly growing need for recreation in outlying neighborhoods of Torrance, and is an effort to build companionship between fathers and sons.

Gra-Y Clubs
Gra-Y Clubs for boys nine to 12 years of age, and their fathers, will be formed at these schools: Carr, Flavian, Seaside, Madrona, and Hillside. The program included weekly meetings, camping trips, athletic leagues, training in dem-

cratic procedures, and all varieties of boy-fun.

Y-Indian Guide Tribes for boys six to nine, and their fathers will be formed at these schools: Edison, Casimir, Meadow Park, Arlington, Sepulveda and Anza. The program revolves around Indian lore, with Indian crafts, stories, dances, costumes, and tribal meetings. The "Y" Tribes take many trips to the mountains and other places of interest.

Many Interests
Each of the groups emphasize recreation, service projects, worship, and informal education. The local YMCA now has 79 such groups meeting each week. The new program will enable more than 500 new boys to take part in the YMCA program.

Information meetings are being held at each of the schools, attended by interested fathers and sons. Meetings

were held earlier this week for Carr, Flavian, and Seaside Gra-Y groups and for the Edison Y-Guides.

Other meetings are scheduled as follows:

Gray-Y—Madrona, Monday, school classroom, and Hillside, tonight at 2750 Grand Summit Rd.

Y-Guides—Casimir, Monday, cafeteria; Arlington, Tuesday, cafeteria; Meadow Park, Tuesday, cafeteria; Sepulveda, Wednesday; cafeteria, and Anza, Thursday, Feb. 27, cafeteria.

The meetings are open to any fathers and sons of proper ages. Further information may be obtained by calling the Torrance YMCA.

WOOL WEIGHT

The average weight of fleece clipped from sheep in the U.S. is about eight pounds.

GRAND OPENING SET . . . New South Bay Edsel Sales will stage a gala grand opening starting tomorrow at 500 S. Sepulveda, Manhattan Beach. The new structure, completed two weeks ago, is specially designed to sell and service autos. (Herald Photo)

WORD KNOWLEDGE

High school graduates know from 25,000 to 35,000 words. By comparison a college graduate usually has a knowledge of 60,000 or more words.

South Bay Edsel Holding Grand Opening Celebration

South Bay Edsel Sales will show off its new building as well as its line of new cars, when it stages a formal "Grand Opening" celebration Friday, at 50 South Sepulveda Blvd., Manhattan Beach.

The modern new structure was completed last Feb. 8, and contains 37,000 square feet of floor space specially designed for the selling and servicing of automobiles.

Bank of America's active membership in the Home Improvement Council for 1958 was announced today by Harold G. Frenz, manager of the Torrance branch.

Frenz explained that the Council is a national, industry-wide organization devoted to the promotion of better living for homeowners. Members include manufacturers, suppliers and dealers, contractors, utility companies, banks, architects, decorators and others who are uniting in a year-long campaign to encourage homeowners' plans for repairing, improving, and remodeling.

One of the Council's major purposes is to inform local homeowners through special community projects and educational programs, where to turn for assistance in implementing ideas for adding to the comfort, convenience, beauty and value of their homes.

The branch manager said low-cost loans up to \$3,500 are available, with repayment terms as long as three years. All types of improvements which become a part of a home are eligible, including built-in appliances, air conditioning, remodeled kitchens and major items such as adding to a garage or a room.

Officers of the organization consist of William "Bill" Hopkins, president; Hernandez, vice president; Wes Pedrotti, general manager, and Harold Hook, service manager.

Chamber Hits State Tourist Agency Plan

The Torrance Chamber of Commerce has passed a resolution protesting a plan to create a state agency to promote tourist and recreational travel in California.

A senate interim committee has been appointed to see whether a state-wide promotional agency would be advisable.

"The Torrance Chamber of Commerce is opposed to the creation of a state agency whose prime purpose would be to duplicate the efforts of sectional state agencies long established for the promotion of tourist travel—agencies financed by private capital and such privately financed agencies have been established for many years and have been doing a commendable job," the resolution stated.

The Chamber urged the state to leave tourist promotions to private agencies.

Bank Joins Home Council Another Year

Bank of America's active membership in the Home Improvement Council for 1958 was announced today by Harold G. Frenz, manager of the Torrance branch.

Frenz explained that the Council is a national, industry-wide organization devoted to the promotion of better living for homeowners. Members include manufacturers, suppliers and dealers, contractors, utility companies, banks, architects, decorators and others who are uniting in a year-long campaign to encourage homeowners' plans for repairing, improving, and remodeling.

One of the Council's major purposes is to inform local homeowners through special community projects and educational programs, where to turn for assistance in implementing ideas for adding to the comfort, convenience, beauty and value of their homes.

Craft Club Plans Meet Next Monday

People who are handy with their hands are invited to join a new crafts club by the Torrance Recreation Department. The first meeting will be Monday at 8 p.m., in the Torrance Municipal Plunge, 3031 Torrance Blvd.

Persons whose hobby is craft work are sought, with meetings to be designed for members to discuss ideas, demonstrate skills, share equipment, and display original work.

Sue Scully, coordinator for the program, mentioned long-range plans, which include guest speakers in different phases of crafts and possible exhibitions.

Both men and women who have any type of craft hobby ranging from silverwork and mosaics to woodwork and related hobbies, she said.
