Thomas to Head 'Airport Day'

James D. Thomas, factory superintendent of the Torrance location's El Segundo Division of Douglas Aircraft Co., Inc., has been appointed general chairman of Torrance's first "Airport Day" scheduled for Saturday, May 3, according to sponsoring city and Chamber of Commerce Officials.

Thomas, who is also chairman of the Chamber's Aviation committee, was born in Eugene, Ore., on Jan. 18, 1914, and was a football star at Washburn College in Topeka, Kans.

In 1937, Thomas joined Douglas at Santa Monica as a toolmaker. Following the holding of a number of supervisory positions in succeeding years, he was appointed assistant supervisor of tool fabrication at the Douglas Tulsa Division. The following year, he became supervisor of master tool production at the Vernon location. In 1944 he was appointed general supervisor of tool fabrication at El Segundo and the following year held a similar position in planning and tool fabrication.

When the Torrance location was activated, he was named superintendent of manufacturing, and in 1955 was made factory superintendent.

Thomas and his wife are the parents of two girls, ages 20 and 16, and a boy age 14.

The newly appointed "Torrance Airport Day" Chairman said that complete committee chairmanship and personnel, as well as a formulated program for the May 3 spectacle, would be announced next week following a series of meetings.

Parents' Film Slated Today

In order to assist prospective parents in planning for the new baby and the hospital stay the film, "Labor and Childbirth," has been booked for the expectant mothers' class at the Torrance Health Center, 2300 Carson St., today at 1 p.m., according to Miss Ann Snoddy, public health nurse-instructor.

Prospective parents are invited to attend any of these classes scheduled for each Thursday, as the subjects discussed are complete in each class and reviews are also given from time to time. There is no fee as this is an educational service of Los Angeles County Health Department.

Choose GAS!

Gas heats water three times faster... easily keeps ahead of the demands of automatic washing machines, dish washers and growing families. Gas costs less, too.

Choose Right Size!

Your plumber's approved sizing chart shows the proper size automatic Gas water heater for your family. Don't buy an inadequate heater. It overworks—won't last as long nor serve you as well as the right size heater.

Choose Quality!

One good way to select a quality Gas water heater that won't rust is to make sure it carries the Verified Long Life Seal shown here—or insist on a 10-year warranty when you order.

It's easy to buy a new automatic Gas water heater. You can give your plumber all the details he needs over the telephone. You may even arrange convenient terms, credit and financing with him over the telephone.
