

New Community Building, Patio Approved for Alondra Park Site

Greatly improved and expanded recreational services will be made available to the people of the large regional served by Alondra Park. Supervisor Kenneth Hahn announced this week as the Board of Supervisors awarded contract for construction of a

new community recreational building in the northwest portion of the park. Work on the new building is scheduled to be started within 30 days, Hahn said, with the W. H. Christensen Construction Co. the contractor.

Plans call for a building of nearly 5000 square feet containing a large activity room, meeting room, craft room, utility room, kitchen, offices and restrooms. Project will include a large paved patio of nearly 10,000 square feet. The new building was designed

by the architectural firm of O'Leary and Terasawa, AIA, and combines beauty with practicality. IN ADDITION to the regular schedule of recreational programs which will be scheduled when the building is completed, the facility will be made available for use of civic organizations and character building youth organizations. The building will be located facing Manhattan Beach boulevard just north of the baseball diamond. Project will also include site development, landscaping, paving, fencing, sidewalks, and curbs.

formerly the site of a temporary veterans housing unit which had served its purpose and was removed to provide 13 additional acres of park land. The new building is the latest in a series of major improvements which Supervisor Kenneth Hahn has secured for Alondra park to enable it to adequately meet the recreational needs of the community. Alondra park is located between

Prairie Avenue, Dominguez channel, Manhattan Beach boulevard and Redondo Beach boulevard and serves the people of Los Angeles, Inglewood, Lennox, Hawthorne, Lawndale, Gardena, Torrance, Redondo Beach and the south bay cities. IT IS HAHN'S belief that it is more economical and wiser for the County to invest money constructively in the future of our youth by providing good parks and playgrounds than it is to be constantly spending large amounts for more juvenile halls, forestry camps, police officer, probation officer and judges. "Adequate recreational facilities are necessary for the general well-being and welfare of the people. It is also an important deterrent to juvenile delinquency," he declared.
