New Scholarship Made Available By Local Plant

An annual scholarship has been established in the Torrance area by Armco Steel Corp.

It is one of 20 such scholarships offered by the company in the communities where it has plants. The program was extended to National Supply plant communities following the merger of National with Armco.

Each scholarship is for four years and is valued at $650 a year. Competition for the Torrance scholarship is open to seniors in public, private, or parochial high schools in Torrance who plan to major in engineering, chemistry, or physics. The winner may attend any accredited college or university. If the winner enrolls in a privately-supported institution, the Armco Foundation will pay $500 a year additional to that institution as cost-of-education supplement.

COMPETITION is not limited to sons and daughters of Armco or National Supply employees. However, sons and daughters of employees at the company's Torrance plant are eligible to compete even if they attend high schools in other communities.

In addition, sons and daughters of Armco and National employees are eligible to compete for the George M. Verity Memorial Scholarship, one of which is awarded annually without geographical location. This is a four-year scholarship, valued at 1000 for the first year and $750 for each of the three followiing years.

Full particulars about eligibility, how to apply, and how winners are selected, together with an application blank, are contained in a booklet entitled "Armco Community Scholarships.' ' Copies may be obtained from Scott F. Albright, superintendent of industrial relations at National Supply's Torrance plant.
