U.S.S. NAUTILUS (SSN-571)

FAME HAS BEEN THE BY-WORD OF THE U.S.S. NAUTILUS EVER SINCE HER COMMISSIONING IN 1954. NOT ONLY DOES SHE HAVE THE DISTINCTION OF BEING THE FIRST NUCLEAR POWERED SHIP EVER BUILT, BUT THE SSN-571 RECENTLY STUNNED THE IMAGINATION OF THE WORLD BY ITS REMARKABLE VOYAGE UNDER THE TOP OF THE WORLD. MORE THAN 320 FEET LONG, THE NAUTILUS CAN CRUISE ALMOST INDEFINITELY ON ITS SMALL ATOMIC "PILE"

An Emotional Jag

Editor, Torrance Herald
I see we're off on another emotional jag concerning the "Chinese lantern" type of traffic signal. Please let's be calm and look at the whole picture, not just the Fern Ave. school crossing.

I'm sure the parents of Fern Ave. school children must be glad to have any kind of a signal; children in our neighborhood (Hollywood Rivera) have to cross a highway ten times as dangerous as Torrance Blvd. without any signal at all.

At the other extreme, of course, we show the greatest solicitude for South High students by building them a forty thousand dollar footbridge (their ten thousand dollar signal installation isn't sufficient, even though they are old enough to take care of themselves). Fern Ave. and the rest of us should be so lucky — except, of course, that these things must be paid for and we are all taxpayers, if only indirectly. Granted "Chinese Lanterns" aren't perfect, but anyone who drives knows he must watch out for children in a school zone and the presence of a crossing guard merely

compounds his gross negligence regardless of the type of signal (yes, even where there is no signal of any kind.)

Recently the papers recited in full the 11 traffic fatalities so far this year in Torrance (by innuendo pointing the finger at Torrance traffic conditions and the Torrance Police Dept.).

Never have I read a more sickening recital of driver error, stupidity, and driver negligence; not all, but most of them hadn't the slightest connection with traffic conditions nor would the presence of the whole police department have been able to forestall some of them. When will we learn that driving is a privilege to be zealously guarded by our carefulness as drivers, not a sacred right that must be pampered by all kinds of expensive special devices to keep us out of trouble?
