

Announcing an outstanding opportunity for senior scientists and engineers who can qualify for Nortronics' Planned Research in Space Electronics team

COMING TO PALOS VERDES NORTRONICS' NEW RESEARCH CENTER

LIVE close to Southern California beaches and mountains. Enjoy informal suburban living in a year-round vacation climate.

LEARN ABOUT WORK at Nortronics' new location in Palos Verdes Research Park. Under construction, this fifty-acre planned scientific center for creative development features a campus-like atmosphere.

PLAN YOUR FUTURE with Nortronics' research team and stimulate your professional growth. If you can qualify you will work on challenging and important current defense contracts. You will work with professionally dedicated associates. You will command a salary commensurate with your experience, and you'll profit from the most progressive fringe benefits.

POSITIONS OPEN NOW! PLANNED RESEARCH IN SPACE ELECTRONICS

This new research group under the outstanding directorship of Dr. K. N. Satyendra, will form the core and essence of Nortronics' Research Park. Studies and research will center in the applied sciences and technologies directly relating to space electronics. Activities include:

Midcourse and terminal guidance for lunar planetary probes
Infrared applications for the detection of space vehicles
Guidance and control for space rendezvous
Space vehicle re-entry

Applications are invited from scientists and engineers who are qualified in the following fields:

- Ballistic missile and space vehicle trajectory computation and analyses
- Telemetering
- Communications
- Navigation systems
- Auxiliary power systems
- Astrophysics
- Planetary and lunar physics
- Atmospheric re-entry and hypersonics
- Infrared
- Microwaves

IF YOU CAN QUALIFY, WRITE, VISIT OR TELEPHONE
MR. JOHN J. RICHARDSON or MR. BOB KEALHOFER
NORTRONICS Electronics Systems and Equipment Department
222 North Prairie, Hawthorne, California
OR. 8-9111, Extension 1886

Of course, all inquiries are strictly confidential.
