

Church of God to Present Christmas Pageant Again

The grounds of the South Bay Church of God, 1786 Yukon Ave., are again ready for the fifth annual presentation of their out-door Christmas pageant which is being given as a tribute to the "Christ of

Christmas." The Biblical costumes, and the carolers costumes of the 1900's, are ready and waiting for the different characters who will play the parts of Mary and Joseph, the shepherds, wise-men, King Herod and the angel Gabriel. A host of heavenly angels who herald the coming of the Christ child will be resplendent in glittering array atop the church chapel. Live animals will add to the reality of the settings while the star of Bethlehem beams brightly over all.

The beauty and magnitude of this pageant can only be appreciated by viewing its performance which will be given twice nightly. The first showing will be at seven, the second at eight o'clock beginning on Thursday night, Dec. 17 thru Wednesday, Dec. 23.

Music for the background of the narration was recorded by the Chancel Choir of the church assisted by several youth singers from the Clarion Choir. Geraldine Liming accompanied on the organ, Carolyn Aoki played the flute during the shepherd scenes and La Wanda White directed all musical numbers. Clifford L. Tierney, pastor of the church, reads the Christmas story from the Bible. He is assisted by his daughter, Mary Ann.

The public is invited to attend this inspiring story of Christmas.

"BLACK SHIELD OF FALSMOUTH"

WHAT'S DOING

R. S. Pyle, your Telephone Manager in Torrance

Imagine circling the earth for 2000 years! I see where scientists say Vanguard I may last that long. But did you know two things circling with the satellite came from scientific research for your phone? They're transistors and solar batteries, both invented at Bell Telephone Laboratories, our research center. They team up to help Vanguard's radio send messages back to earth. The transistors act as amplifiers, and solar battery cells supply power from sunlight. Here on earth, solar batteries are still experimental as far as telephones go. But transistors help speed your out-of-town calls by automatically helping to pick the right voice path. So you see, the same telephone progress that helps us improve your service is also helping science explore outer space.

Christmas is generally defined as the festival of the Christian Church observed annually on the 25th day of December in memory of the Birth of Christ.

It is further described as being celebrated by the church services, by giving of gifts, and by general hospitable cheer.

However, in many instances, the year's biggest holiday is "celebrated" in a considerably less pleasant manner. "General hospitable cheer" may be notably lacking in homes where the nearly 100 persons in the state who die in holiday accidents will be missed.

Or in homes which are caught in the rash of fires which surround Christmas trees each year.

Or in residences which are entered by burglars each Christmas seeking gifts.

In the first instance, we at Pacific Telephone believe that many Christmases will be made merrier by following the National Safety Council's "Yule Rules" for traffic: "Drive Dry, Walk Dry, and Avoid the Christmas rush."

The season also will be made more enjoyable by heeding the warning of fire departments concerning Christmas lights, trees, and gift wrappings.

And, lastly, you may have reason to be glad that you locked your holiday decked home when you left. We at Pacific Telephone wish you the merriest of Christmases and a "Happy New Decade."
