Investment Classes Set

A February series of classes entitled "How to Invest," has been announced by Hanley Rogers, district manager of Diversified Mutual Funds, Ltd. The course will include discussion of the stock market, mutual funds, tax and estate planning. The classes will start Wednesday evening, Feb. 10, and will be held at Diversified's office at 1834 Post

Garden Checklist

By California Association of Nurserymen

1. Bare-root roses are still high on the planting list. The earlier you make your selections, the more new varieties you'll find in stock.
2. Deciduous fruit trees are best planted now. Where space is limited, plant dwarfs or try a three-in-one-hole planting.
3. Fuchsias can be pruned when frost danger has passed. Roses, too, if they haven't been already.
4. Plant annuals and perennials for spring and summer bloom.
5. Practice snail and slug control the easy way by using one of several snail control products. Your C.A.N. nurseryman has them.

Enlistees for Nuclear Posts

"The high school graduate can qualify for training in the Navy's Nuclear Field program prior to actual enlistment," said Navy Recruiters in Gardena.

"However, he must have plenty 'upstairs'. If found qualified under a series of examinations, he is classified as a Nuclear Field Seaman Recruit, and after basic training in San Diego, is sent to school in New London, Conn. "This is a wonderful opportunity for young men to embark on an entirely new technical career", said Chief Bradley, "and, at the same time, serve in one of the oldest organizations in the country, the U. S. Navy."

The Nuclear Field is still

in its infancy and destined to become a giant in both industry as well as the military services. The man that 'gets in' on it NOW will be a leader in this field tomorrow.

Young men interested in a career in the Nuclear Field, Electronics, Guided Missiles, or any one of over 60 other specialties in the Navy, are invited to contact the Navy Recruiters whose office is located at 16422 South Vermont Avenue, Gardena, phone DA 4-4588.

Electronics Enlistments Open in Navy

Electronics can be an "open sesame" to an endless variety of assignments with the Navy, Recruiter Thomas A. Coleman reported this week.

A new enlistment bracket called the Electronics Field Seaman Recruit program permits qualified high school graduates to attend one of 16 service schools dealing with electronics after recruit training.

Much of the training can be applied later to college credits in most schools, Navy officials said.

Information on the program can be obtained at the U.S. Navy recruiting station, 16422 S. Vermont Ave.
