

### City Planning Three Projects

Plans for improving Torrance Blvd. between Western Ave. and the Pacific Electric Depot; the Edison Co. right of way on the rear of the civic center, and for extension of a 4-inch water line to El Nido Park are being prepared following approval of the projects by the city council.

Total cost of the three projects was estimated at about \$7400 for material and labor by Park Superintendent Casper Clemmer in a recent report to the city council.

A fourth project, improvement of the Palos Verdes Blvd. parkway in the Riviera was delayed for further study.

### South Area Building Ban Ends Tuesday

A year-long building ban on construction in the southeast area of the city will be lifted next Tuesday as a result of action taken last week by the city council.

Approval of an ordinance lifting the ban in the area formerly served by Narbonne Water Co. No. 3 will permit developers and private builders to begin construction on new projects in anticipation of adequate water supplies later this year.

Clearance from the Torrance Municipal Water Dept. must be obtained before each permit is issued in the area, according to the new ordinance.

The building ban was ordered by the council last year because of low water pressures throughout the area.

The council's new order does not change the restrictions placed on the area served by Narbonne Ranch Water Co. No. 2.

### Ladies Day Programs at Alondra Set

Ladies Day programs will be initiated at Alondra Park tomorrow afternoon between 1 and 3 with the organization of groups for ping pong, badminton, and other activities, including Trampoline instructions.

Director Hal Thompson will conduct the Trampoline lessons, and Janis Villaseor, assistant director, will supervise other segments of the Ladies Day program. No registration is needed to participate, the director said. The Alondra Park Community Building is located at 3535 Redondo Beach Blvd. between Prairie and Crenshaw.
