SCULPTURE ON EXHIBIT AT GALLERY

The public is invited to view this exhibit which opens Sunday with a tea from 3 to 5 p.m. Thereafter, it will be on view during the regular library hours.

DeVry Opens Enrollments

Enrollments in the DeVry Technical Institute, largest school of its kind in the United States, are being accepted here for part time students, it was reported this week by H. D. Miller, West Coast supervisor for the school.

For men who can not attend the residence courses in Chicago, enrollments in the part time study program of electronics using lesson plans and materials supplied by the institute are now open, he said.

An effective placement service also aids the student at the end of the course, he pointed out.

Interviews for persons interested in electronics and its related fields of automation, instrumentation, missile controls, radar, communications, radio, and television are now being scheduled.

DeVry trains men for more than 8000 companies using electronic technicians, and the need for technically trained people is growing daily, he said.
