

Cancer Society Asks Families To See Doctor

The American Cancer Society yesterday asked everyone to join in the observance of Cancer Control Month in April by making an appointment with his doctor for every member of the family who has not had a physical examination this year.

"Time is every citizen's best weapon against cancer," says Mrs. J. J. Millard, 22118 Ocean Ave.

"Early detection and treatment still provide the best chance for cure, which is why it is important that everyone have a checkup at least once a year."

Men over 45 and Women over 35 should have physical checkups twice a year, Mrs. Millard added.

She also urged every family to acquaint itself with cancer's seven danger signals, which are:

1. Persistent hoarseness or cough.
2. Unusual bleeding or discharge.
3. Persistent indigestion or difficulty in swallowing.
4. A lump or thickening in the breast or elsewhere.
5. A sore that does not heal.
6. Persistent change in bowel or bladder habits.
7. Change in a wart or mole.

These symptoms do not necessarily mean that cancer is present, Mrs. Millard pointed out, but they should always mean a visit to the family doctor, she said.

Mexican Style Show

Parents and fellow students at Wood Elementary School got a chance to learn more about Mexico recently, as Mrs. Betty Christensen's sixth grade class put on a program to demonstrate what they learned about America's southern neighbor.

After the youngsters reported on the history and geography of the course, they presented a Mexican fashion show and did some dances. After the program, room mothers served Mexican food and punch to the guests.

NAMED MANAGER

Raymond L. Koke has been appointed staff manager for the South Bay district agency of Prudential Insurance Co., according to Harvey L. Harms, manager.
