I used to like the woman but now I hate the sight of her. Sometimes she stays for dinner and this ruins the whole evening for me.

I don't want my wife to know I feel so strongly about this. She'd probably think I was cracked. What shall I do? —DOUBLE HELLO

Dear Hello Hello: A straightforward statement to your wife should do it.

In case you can't think of the words, here's a sample: "I'd like to come directly home after work, dear, but if you have company I'd be happy to kill an hour or two elsewhere until she leaves. I'll phone just before I head home and you can give me the word."

To learn the knack of feeling comfortable with the opposite sex, send for ANY LANDERS' booklet, "How To Be Date Bait," enclosing with your request 20 cents in coin and a large, self-addressed, stamped envelope.
