"We've built all kinds, but we live in Medallion homes"

H. C. VALENTINE, PRESIDENT; LYNN VALENTINE, VICE PRESIDENT, H. C. VALENTINE & SON, INC.

What better guide could you have in buying a home? Here's a father-and-son team of builders whose experience with all kinds of homes led them to build their own to Medallion requirements.

"We see it in people every day, this great desire for modern electric living," says the senior Mr. Valentine. "Since we first started building in Los Angeles County in 1946, we've built hundreds of homes. Those with electric appliances have always found ready buyers."

"It's easy to understand," says the younger Mr. Valentine. "Take the electric range, for example. In my own home we find electric cooking so cool and clean it makes any other kind seem old-fashioned. And modern housepower wiring is a real asset. We have quite a few appliances; plenty of electric power is a must."

The Valentines, professional builders of quality homes, live as well as build Medallion. Their reasons are significant for home-buyers everywhere. Make sure the home you buy meets Medallion standards.

Only one new home in five qualifies for the Medallion—an award which assures you:

1. An all-electric kitchen, equipped with major electrical appliances, including flameless range and oven.
2. Housepower wiring for modern electric living.
3. Light for Living—abundant light designed for comfort, safety and beauty.

The Gold Medallion Award includes all these Medallion features and more. For total-electric living, the Gold Medallion adds:

4. Flameless electric space and water heating.
