

Construction of Calvary Church Sanctuary Passes Half-Way Mark

The construction of the new 550-seat sanctuary of the Calvary Baptist Church, 2818 Manhattan Beach Blvd., has passed the half-way mark, according to H. Earl Kuester, pastor. The steel framework, brick walls, and cement floors are finished, and the carpenter work on the roof is scheduled to be finished by Friday of this week. Occupancy is scheduled for about mid-summer.

The church is being financed by the Broadway Plan, which is a simple variation of municipal finance in which the church sells 6 per cent interest bearing bonds to its members and friends in the community. \$123,000.00 in bonds have been sold on the total issue of \$150,000. The next interest will be due on May 1st, and all bonds purchased prior to that date will bear 6 per cent interest back to Nov. 1st, according to the Trustees of the church.

Choir will sing, and Sue Brady will lead the congregation in song. Al Van Selow, Minister of Christian Education and Youth, will bring the message on the topic, "For This Reason I Left Thee in Crete," based on the text of Titus 1:5.

HALF-WAY MARK . . . Rev. H. Earl Kuester, pastor of Calvary Baptist Church, inspects progress of construction on new sanctuary at 2818 Manhattan Beach Blvd.

THE NEW transistor-type Allen organ, for which a specially designed sound chamber is now being built in the chancel, is being purchased with Blue Chip stamps. The Calvary Baptist Day School has set a goal for itself of 500 books for the project, and the church and Sunday School together are seeking to acquire 1500 books to complete the 2000 books still needed. Other types of trading stamps are also being received by the church for the organ project.

The pastor will be preaching at both the 8:30 and 11 a.m. duplicate Sunday worship services on the topic, "How To Know You Are Saved." The 7 p.m. Vesper Service will be sponsored by the "Timothians", Calvary Baptist's youth who are committed to full time Christian Service.

Bank to Show Off ERMA, Newest In Electronic Check Processing

How long does it take ERMA to process a bag full of checks? A hundred dollar savings account will be awarded the visitor making the closest guess at the Southwest Los Angeles ERMA Center open house Friday night.

An unknown number of checks will be on display in a plastic bag during public open house hours, 4 to 9 p. m. in the ERMA Center at 7226 S. Figueroa St.

THE OPPORTUNITY to test wits with ERMA, for a profit, calls for each contestant to estimate how many hours, minutes and seconds it took ERMA to sort these checks and record the information.

Official entry blanks are available at any Bank of America branch or at the ERMA Center during open house hours. Children may enter the contest if accompanied by either parent.

IN CASE of a tie duplicate prizes will be awarded. Entries are limited to one for each visitor and may not be

made by Bank of America employees or families or Bank of America ERMA contractors.

A separate contest will be held at each of the bank's 12 ERMA Centers during the state-wide open house activities.

Winners will be notified by mail and certification of the actual time taken by ERMA to process the checks will be made by Arthur Young & Co., Certified Public Accountants in San Francisco.

VISITORS to the open house will be offered refreshments and tours of the entire installation. They will see how the equipment sorts and reads checks, figures new balances and prints statements for more than two million checking accounts in over 600 branches of Bank of America.

ERMA (Electronic Recording Method of Accounting) was pioneered by Bank of America and is the first completely automated electronic bookkeeping system in full time operational use by any major bank in the country.

Son of Local Couple Heads Electronic Computer Work

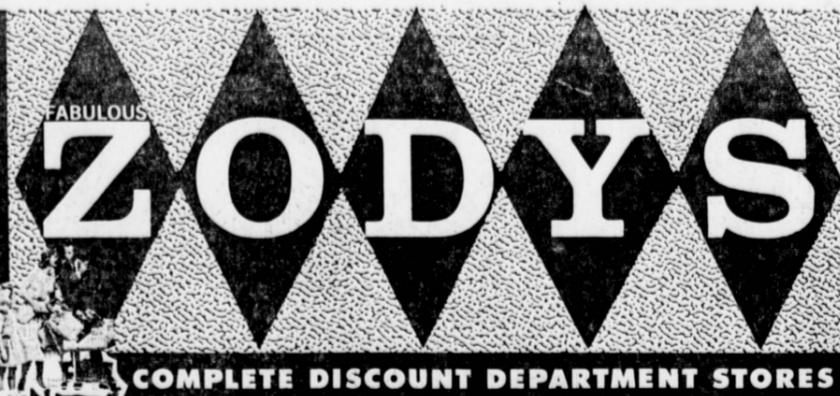

Mr. and Mrs. Arthur T. Garrison, 23315 Huber Ave., learned today that their son, Ken, has been named manager of a newly created department at Pacific Mutual Life. The announcement came today from the treasurer of the 93-year-old company, R. D. Dotz.

The Garrisons' son will head the systems development department, according to Dotz.

He will take responsibility for handling systems design work on all new applications of the company's electronic computer, Univac II.

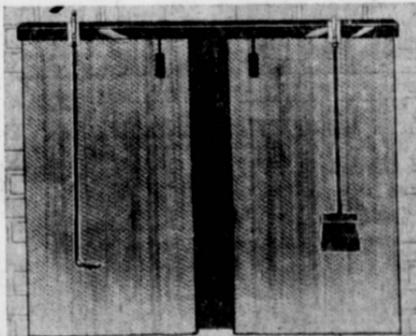

He joined Pacific Mutual in 1952, shortly after gaining his bachelor's degree in business administration from UCLA, where he had majored in finance.
