Moran, Inc., Oldsmobile-Cadillac, Hermosa Beach; Bob Keefer, Plymouth-Fiat-Valiant, Hawthorne; Bill Creighton Imports, Triumphs, Renault, Peugeot, Hermosa Beach; Hermosa Fiat; Newcastle Sports Car Centre, Hermosa Beach; and Oxford Imports, Lawndale, MG, Austin Healey, Sprite, Morris.

'Information Night' for YMCA Y-Indian Guides Set This Week

Hundreds of dads and sons from 10 North Torrance schools will have an opportunity to join the new Torrance Y-Indian Guide Tribes next Wednesday and Thursday evenings.

The Torrance YMCA is conducting two information nights to tell dads and sons about this popular Indian lore "Y" program. Y-Indian Guides are designed to bring father and son together in tribal meetings twice monthly. Their tribe enjoys Indian crafts, games,

costumes, songs, stories, nature lore, swimming, and camping out.

AIMED AT boys six to nine years of age, the program calls for each dad to belong to a tribe also. Together, the "big and little braves" participate in pow wows, camp-outs, track meets, Indian ceremonies, and many other outdoor activities.

At the present time, there are 58 Torrance Y-Indian Guide Tribes serving more than 1000 local men and boys. New dads and sons can learn more about this program by attending one of the two Information Nights scheduled for this week.

FOR BOYS in Arlington, Casimir, Crenshaw, Hamilton or Lincoln Schools, the Information Night will be held at the Arlington School Cafeterium, 7 p.m., on Wednesday, April 20. The address for this meeting is 17800 Arlington Ave.

For boys in Edison, Yukon, Evelyn Carr, Magruder and Perry Schools, the Information Night will be held at the Edison School Cafeterium, 3800 W. 182nd St., 7 p.m. on Thursday, April 21.

Further information can be obtained by calling the Torrance YMCA at FAirfax 8-1272.

Star Namesakes Hospitalized

Elizabeth Taylor, Eddie Fisher and Robert Taylor are patients at Orthopaedic Hospital today.

Elizabeth, a four-year-old blue-eyed blond, is the daughter of Mr. and Mrs. Lee C. Taylor of 4006 W. 175th Pl.

Eddie is a 12-year-old Indian from Arizona attending Sherman Institute and Robert, 1, is the son of Mr. and Mrs. Aubey Taylor of 340 Bloom St. All are post-polio patients.

The youngsters are representative of the hospital's creed of care to handicapped children regardless of race, creed, or family financial status.

Hospital officials are seeking funds to complete the new \$6,500,000 orthopaedic center at 2400 South Flower Street. Funds totaling \$2,600,000 still are needed, they report.

Chest Board Seeks Lomita Center Site

Relocation of the Harbor Area Community Chest Center will draw the attention of a special Chest committee at 3 p.m. Friday, April 22, when they meet at the Presbyterian Church of Lomita.

Jimmy Viscoglia, Palos Verdes, chairman of this special board committee investigating relocation of the San Pedro Community Chest Service Center, reports that Chest-supported agencies in the Harbor Area have been advised and asked for assistance in the proposed Center move.

The population center of the Harbor Area is now in Lomita, according to Viscoglia, and efforts are being expanded to obtain a parcel of land in this area.

SALESMAN CITED . . . Ted Kunkel, who resides at 3437 Cricklewood, has been cited by Venus Foods of Los Angeles as "Salesman of the Year." Kunkel, was cited for outstanding sales achievements for the firm by Murray Berke, regional sales manager.

Chess Tourney Stated

A chess tournament among youngsters in the El Retiro Park area is planned for 4:30 p.m. Monday at the play area, according to the Torrance Recreation Department.

Recreation leader Jack Taylor said awards will be given to winners and runners-up.

I want to extend a sincere thank you to all those who voted for me and worked in behalf of my candidacy.

I will earnestly try to measure up to the confidence you have placed in me.

Yours for a Greater Torrance

George Vico

RAY D. GARDNER
Named Chief Engineer

Gardner Named Chief Engineer For Local Horkey-Moore Plant

Ray D. Gardner, veteran aircraft and missile engineering executive, was today named chief engineer of Horkey-Moore Associates of Torrance, wholly-owned subsidiary of Houston Fearless Corp.

President Edward J. Horkey said Gardner will assume his new duties immediately. The position was formerly filled by John N. Kerr, vice president engineering.

EDUCATED AT Case School of Applied Science and the Curtiss-Wright Technical Institute, Gardner has had 25 years experience in engineering. He joined Northrop Corporation in 1944, serving as project engineer and in other engineering capacities on Northrop's wartime and postwar projects such as the P-61, YF-89D,

F-89, B-49 and SM-62 Snark. He served most recently as fighter weapon system project engineer on the T-38 supersonic trainer, and the N-156F fighter.

From 1938 until 1944 he was associated with Vultee Aircraft Co., Douglas Aircraft Co., El Segundo Division, and Andrew Higgins Aircraft Co.

Gardner is a member of the Institute of Aeronautical Sciences and holds a private pilot's license. He lives at 4 Headland Dr., Rolling Hills, with his wife.

Horkey-Moore is active in systems engineering, development, testing and production in fields of aircraft, missiles, and space vehicles. It occupies a five-building engineering and manufacturing facility in Torrance and has 245 employees.

Diabetes No. 8 Among Diseases Which Cause Death in the Nation

ROY O. GILBERT, M.D., County Health Officer

It is said that at least a million Americans are known to have diabetes and that another million have the condition in an unrecognized form. It is the eighth cause of death in the United States.

Ever since the discovery of insulin many years ago, the medical profession has been well equipped to deal with diabetes. The disease of itself need not be fatal if it is discovered early. If the patient cooperates with his physician, the condition can be satisfactorily controlled.

FINDING THE diabetic is largely a matter of public education concerning the nature of the disease, its symptoms, and motivation of the public to the need for periodic testing especially in the older adult groups. Most susceptible are overweight, middle-aged persons, particularly women with a family history of the ailment.

Diabetes is a condition in which the body cannot use sugar in a form which can be carried in the blood stream because of the lack of a secretion (now known as insulin) from the pancreas.

TO WASH away the unused sugar, the kidneys increase the quantity of urine, and the patient drinks continually greater amounts of liquids. At the same time, the muscles cry

for sugar to help them in their work, and this in turn induces the patient to consume more food. Along with increased thirst and appetite there are other symptoms of diabetes such as drowsiness, loss of weight, dry skin, weakness, pains in the legs, and general nervous irritability.

It should be remembered that increasing weight is a dangerous burden to put upon middle-aged bodies, and that overeating of all foods, especially starches and sweets, is to be avoided. Fruits and vegetables should play an important part in nourishing the body.

DIET IS NOT the only factor in maintaining health. Sufficient rest, regular exercises, and recreation are necessary too. Most important of all, of course, is the periodic medical examination. A person who has reached middle age without a recent medical examination, including a unalysis, should see his family physician even though he is apparently well. By this means and by following the common sense rules of health, all of us can do much to avoid the consequences of diabetes.

Anyone interested in a booklet concerning diabetes may obtain it by writing to the Los Angeles County Health Department, Division of Public Health Education, 241 North Figueroa Street, Los Angeles 12, California.
