Liberty isn't in the dictionary

Liberty (lib'er-ti) noun. 1. freedom from control or subjection; 2. freedom from restraint; 3. the possession and use of the privileges of self-government; 4. a transgression of the rules of propriety or ordinary usage;

As the minuteman crouched behind a low stone wall, his thoughts centered on a clump of trees about a hundred yards away; the tree stumps that wouldn't be dug out of his corn field by fall; the realization that he could not remember when he had slept more than three hours at a time. He had never read that definition of Liberty—he couldn't read. He had never shouted his ideas of Liberty—they spoke inside him, softly, constantly. His cold hands gripped the cold metal of his rifle. He was a patriot but he didn't know it. He was an ordinary man.

He was an American. He was defining Liberty for the first time and helping to conceive a nation predicated on ideas and ideals which had never been put into practice.

That was 184 years ago. Today we're pretty sophisticated and just about anybody can give you a detailed definition of Liberty with lots of words starting with capital letters. And if you pin a man down, he'll sheepishly admit that's not what he really thinks but he can't quite put into words how he really feels.

And that's the whole point. We Americans don't have to define Liberty—we live it. Every breath we take, every mile we drive, every word we utter is the result of those generations before us who, like us, could not say it but felt something which doesn't exist anywhere else.

Once in a while, like now, just before the Fourth of July, some of us think about 1776 and tricorn hats and Paul Revere, but nobody mentions these things. It's embarrassing! And it shouldn't be. Act the part. Act proud.

On the 4th, when you're shopping in your favorite market or getting gas on the highway, say "Thanks, American." The recipient will look at you as if you were out of your mind and then grin. And when you walk out or drive away, if you turn around real quick, you'll see them looking after you with their chins sticking out like Stonewall Jackson. You see, they're Americans, too, and they can define Liberty in their eyes, in their hearts, in their minds—just like you.

See you next week.
