

Harbor Freeway Open to 190th Set for July 15

Ribbon cutting ceremonies to open up a new two-mile section of the Harbor freeway have been scheduled for Friday morning, July 15. Supervisor Kenneth Hahn reported today.

Opening of the section between Alondra Blvd. (161st St.) and 190th St. will extend the freeway a distance of 15.3 miles south from the civic center interchange and complete the portion of the freeway in Supervisor Hahn's district.

Funds for the two remaining gaps south of 190th St. which will ultimately extend the Harbor freeway to San Pedro have now been budgeted by the State Highway Department.

Dedication program will be held on the freeway near the Artesia Blvd. (171st St.) interchange.

Opening of the freeway section between Alondra and 190th marks the successful completion of a long fight by Supervisor Hahn and public officials of the Southwest and South Bay areas to expedite construction of the busy roadway south of 124th St.

EXTENSION of the freeway south to 190th was in danger of being delayed because the State Highway Commission had not budgeted the necessary funds, although the plans were completed and right of way was secured by the summer of 1957. In August, 1957 Supervisor Hahn led a contingent of 40 public officials and civic leaders to Sacramento and they were successful in getting the Commission to provide the necessary funds and the project went to construction in September, 1958 when the money became available.

The entire section between 124th and 190th was awarded as one contract, but the link between 124th and Alondra was opened in May of this year.

Master of ceremonies at the opening of the Alondra-190th street segment will be Carl Hoffman, president, Harbor District Chambers of Commerce. Other participants will include Dr. George Glassoff, president, Southside Chamber of Commerce; members of the Inter-cities highway committee, headed by William Cameron, Redondo Beach City Councilman, and Los Angeles City Council President John S. Gibson, Jr.

ALSO BEING invited to participate in the ceremony are State Senator Richard Richards, Assemblyman Clayton Dills and Vincent Thomas, State Highway Commissioner Robert McClure, Mayor Robert Kane and Gardena City Councilmen, and Mayor Albert Isen and Torrance City Councilmen.

Special recognition will be extended those who went to Sacramento to secure construction funds for this segment.

Supervisor Hahn pointed out that the Harbor freeway is now the most heavily traveled roadway in the world, with a daily average traffic count of 195,000 motor vehicles.

"This fact alone justifies the hard work and effort put forth by so many community and civic leaders in getting the construction of the freeway expedited south of 124th street," he declared.
