

Cancer Scientists Set Major Goals For 15 Years

After fifteen years of concentrated and accelerating cancer research, American Cancer Society scientists today are focusing on six major goals for the next fifteen years, according to Dr. Sal Baker, president of the Los Angeles County Branch of the American Cancer Society.

DR. BAKER said that the six "hopes for achievement by 1975" have been listed as follows by Nobel-laureate Dr. George W. Beadle of the California Institute of Technology, chairman of the Society's National Research Advisory Council:

1. Identification of the mysterious "trigger" which starts cancer growth;
2. Discovery of a means of checking the spread of cancer cells;
3. Development of chemicals that selectively kill cancer cells without injuring normal cells;
4. Discovery of possible immune defense mechanisms that may halt cancer after it starts;
5. Establishment of proof that viruses cause some forms of human cancer;
6. Perfection of a simple and practical blood test for cancer.

DR. BAKER said that since 1945, the year the American Cancer Society began its pioneering research attack on cancer, the Society has spent about \$76,500,000 on cancer research. During this period more than \$8,000,000 has been allocated to scientists at Californian institutions.

The Los Angeles County Branch of the American Cancer Society still needs funds to reach its 1960 Cancer Crusade goal. Dr. Baker asked that contributions for cancer research, education and service to cancer patients be sent to the Society at 426-B East Queen St., Inglewood 1 or call OR 2-8148.

Fare Increase, New Bus Routes Get Approval

Approval was given the Torrance Municipal Bus Lines by the city council this week to make several route changes and increase fares from 5 to 7 cents.

Fares will be increased to 20 cents with additional zone increases of from 5 to 7 cents. The new fare to Los Angeles is 55 cents and 50 cents to Long Beach.

Permission for new routes to the Southwood, Southwest Park, and Hollywood Riviera sections was granted. Other route changes include the Sunday Los Angeles run, which will operate on a two-hour schedule.

Bids for three new buses were also authorized.

The Bus line is operated by the city as a public service at an annual deficit of about \$36,000.
