Communist Patterns of Conquest Never Change

"The power that is supported by force alone will have cause often to tremble" ... Kossuth

PHILADELPHIA... This reporter has had a grandstand seat watching Communist gains all over the world since 1931. We would be the last to deny them. Consistently through our columns and lectures we have issued the warning... that you can no more co-exist with Communism than you can co-exist with advanced cancer... that the Communist goal is to defeat faith in God and with it all freedom and free institutions... that they will use all weapons: war, revolution, riots, sabotage, infiltration, deceit, phony agreements, treaties, promises. They will infiltrate free institutions, schools, churches, unions, business, government. This is the unchangeable pattern of Communism, modified only by the expediency of the moment.

In exposing the threat of Communism some observers make one major mistake. They headline its gains, while almost totally ignoring its defeats. This is probably, the major reason for much U.S. defeatism, pessimism and why the "man on the street" has a right to feel frustrated and confused. Communism burst upon the world in 1917 with a blockbuster from the hands of Nicolai Lenin. He led the murdering mob which seized control of the second provisional government of Russia which followed the overthrow of the Tsar.

There were less than 40,000 Communists consolidating their drive in Moscow. This is less than the membership of the Communist party in the U.S. today.

By calculated, skillful — sometimes masterful — infiltration of fanatical converts,

They learned that ideas, however false; and promises, however phony, take hold more cheaply and more effectively than guns... that podiums gain more converts than tanks. By 1940 they swallowed eastern Europe... infiltrated the Middle East and China. By 1950 they moved into Africa, Latin America, Asia and the Western world.

Now, less than 100 miles off the coast of Florida, they seem to be fulfilling the Lenin dream and prophesy: "First we will take eastern Europe... next the masses of Asia... then we shall encircle the last bastion of capitalism, the United States. We shall not have to attack by arms. It, too, will fall like an over-ripe fruit right into our hands."

With other foreign correspondents in the 30's, 40's, and 50's, we had a front row seat along the route of Communism.

From then on the complete takeover was only a matter of time. All this is an established fact of the history of the past 44 years from Russia around the world.

nist conquest. We were eye witness to much of this takeover from Warsaw to Shanghai. We watched the propaganda pave the way to political defeat of once free nations. The pattern was unmistakably similar: infiltration of schools, churches, government, by the Communist elite... and infiltration of workers' guilds, unions, labor ranks by trained goons and hoodlums to whip the masses in line.

After the groundwork was laid, the commissar would move in under the disguise of bringing economic aid and establish himself inside the government machinery as an advisor. With the Communist headquarters established, the Communist party from within the country would launch a series of parades at first, then protect meetings, then shutdowns of public transportation and utilities, and then — under threats of civil war — exert pressure to force coalition governments to be formed to include Communists.

From then on the complete takeover was only a matter of time. All this is an established fact of the history of the past 44 years from Russia around the world.
