

# Effect of Referendum on State's Reapportionment Bill Explained

By CHARLES E. CHAPEL, Assemblyman, 46th District

A member of the Assembly, California State Legislature, continues to represent his present Assembly District until the next general session of the Legislature convenes in January, 1963. Although reapportionment goes into effect 90 days after the adjournment of the current 1961 general session on June 16, the first elections under the new reapportionment law will not take place until 1962.

In legal effect, the present districts continue in operation. For example, if a vacancy occurred in the present membership of the Assembly, at a special election a vacancy would be filled by the voters of the present district, or districts.

Central Committee members, Members of the County Central Committee will be elected at the June, 1962, Primary Election from the newly created Assembly districts and not from the present districts. The same is true for delegates to the State Convention and members of the State Central Committee who hold office or are appointed on the basis of Assembly and Congressional Districts.

If a referendum petition, proper in form and signed by the prescribed number of qualified electors, is filed with the Secretary of State within 90 days after the adjournment of the Legislature on June 16, 1961, the reapportionment act will be prevented from going into effect.

THE reapportionment act will be in effect for the election of County Central Committee members in 1962, and also the appointment of State

INASMUCH as the referendum acts not only to establish new districts, but also old districts, it follows that if the reapportionment act or acts are prevented from taking effect,

the present Assembly and Congressional districts are retained in existence. Therefore, the present dis-

well as Congressmen would be elected on the basis of such districts. Regarding Congressmen, the eight new additional Members of Congress to which California is entitled would be elected at large.

THE LAWS of the United States provide that if new districts are not formed in a State following the federal census, such as the Federal census of 1960, to reflect an increase in the State's delegation to Con-

gress, the new Congressmen must be elected from the State at large. All these statements are based upon reliable legal advice of a non-partisan nature and apply to both Democrats and Republicans.
