

Herald Sports Editor to Head ECC Warhoop Staff

Gregg Petersen, retiring staff of the college weekly for sports editor of the El Camino College Warhoop, will head the staff in an announcement made this week by Wayne Overbeck, commissioner of publications.

NEW EDITOR . . . Gregg Petersen, shown here at his typewriter in the Herald Office, will assume the duties of Editor-in-Chief for the El Camino College Warhoop next fall. Petersen, Herald sports editor, is the retiring sports editor on the Warhoop staff. (Herald Photo)

Petersen is also the HERALD sports editor. He is a graduate of Morningside High School, Inglewood. The 18-year-old journalism major lives in Morningside Park.

Also honored at the banquet were members of the yearbook staff. The new cover design was introduced by editor Sonja Ottenbacher.

Deadly Reckoning by Robt. Day

More than 260,000 pedestrians were killed or injured in 1960.

... Scouts

(Continued from Page 1) Arrowhead Camps for a second or third year.

ASSISTANT leaders and senior patrol leaders were Richard Rozendal and Bob Bauman, both seniors at Torrance High school. These boys conducted classes in the activities and skills before each activity.

For the Scouts participating in the Cedar Badge program, their week at camp is both valuable and enjoyable. For those who will benefit from second hand training in troop units, it is an experience to look forward to.

Swimming pools, fishing holes, trails, and conservation programs provide plenty of action for the week-long stay. The Scouts rely on their training, and have few modern conveniences.

All supplies are furnished by the camp. Each boy draws his equipment on arrival, and each troop unit draws a daily supply of food. The average cost for a week's stay is \$21 per boy, and each Scout is encouraged to pay his own way, although a few partial campships are distributed each year.

EACH SUMMER a 10-week schedule is maintained by the camps. The Lake Arrowhead camps were begun in 1949, and the Cedar Badge Training program, which always takes place during the first week of the summer sessions, was initiated in 1952.

This year, the Cedar Scouts will take back their skills in leadership and camp skills to more than 80,000 boys in the Los Angeles Area Council.

Camping during Cedar Badge week is by district, and the cosmopolitan nature of the camp is one example of the work which the Sears Roebuck Foundation and the Scouts have accomplished. Of the 46 boys in the Harbor District camp, all major religions were represented, along with the major races. All are Boy Scouts, enjoying the time of their life, while learning all about outdoor life.

IN ADDITION to the basic camping skills, the Cedar Badge Scouts receive instruction in handling firearms from a unit of the Marine Corps which is stationed at the Arrowhead site during camping season. A conservation program has also been initiated as the result of a fire which swept through a about 200 acres in 1957.

A saw mill operated by camp personnel has reclaimed much of the lumber for use in the camp. This year Scouts planted some 52,000 small trees, grown from seed which they harvested, in an effort to reclaim some of the burned acreage.

Small lakes are now under construction in the camp grounds. They will be used for boating, canoeing, and fishing when they are completed.

THE BOYS from Torrance enrolled in the Cedar Badge program this year and their troop numbers are Terry Strouse, 211; Paul D. Marsh, 219; John Spindler, 242; James Crockett, 254; Rex Whisman, 315; William Raines, 728; Jim Niswonger, 730; Nick Nicolle, 732; Robert Gonzalez 741; and Charles Russell, 753.

Also in camp for the week were Douglas Airhart, 761; Ricky Buhman, 785; Mike Cooper, 785; and Edward Cannady, 948. For some, it was the first trip, but others were at the

MRS. NELLIE McNABB Funeral services for Mrs. Nellie Florence McNabb, 77, of 1505 W. 221st St., were held yesterday afternoon at the Stone and Myers Mortuary Chapel with the Rev. H. Wesley Roloff, former pastor of the Central Evangelical United Brethren Church of Torrance, officiating. Mrs. McNabb, widow of the late George Clarence McNabb, was a native of Missouri and had resided in Torrance for 40 years. She died here Wednesday.

She is survived by a son, Harold, of Torrance; two daughters, Carrie Jane Robinson of Torrance and Betty Black of Norwalk; three sisters, Lou Mitchell of San Bernardino, Dolores Kightlinger of Inglewood, and her twin sister, Bell Minor of Torrance; and two brothers, Scott Marlin of Hawthorne and Orville Marlin, Oceanside.

In addition she is survived by many grandchildren and great-grandchildren, a mong them Mrs. Donna D. Valenzuela, George Robinson, and Mrs. Diane Gardner.

Interment was in Green Hills Memorial Park.

Funeral services for Ethel Marie Cole, 60, of 1630 W. 220th St., were held yesterday at 11 a.m. at the Halverson-Leavell Mortuary Chapel. A native of Illinois, Mrs. Cole had resided in the Torrance area for 20 years.

Survivors include the widower, James; two sisters, Mrs. Jessie Kelly and Gola Bonich, both of Torrance; and a brother, Joe F. Reynolds, Manhattan Beach.

JANE C. FOWLER Funeral arrangements for Jane C. Fowler, 72, of the Billmore Hotel, Hermosa Beach, are being completed by Halverson-Leavell Mortuary. Mrs. Fowler was a native of Alabama, and had lived in the area since 1936.

She is survived by a daughter, Ruth Harrison, Sanatoga, Calif.; and a son, Bruce Braum, Campbell, Calif.

BLAST-OFF TODAY . . . A rocket, designed by Lee Hoops and Cleo McClees for the South Bay Church of God, will be the symbol for the church's "Operation Outreach" this summer, according to the Rev. Clifford Tierney, Pastor. The pastor says persons attending Sunday School today will receive identification cards as members of the rocket crew. The goal is 500 in Sunday School during the summer months. (Herald Photo)

WRITING HOME . . . Doug Airhart pens a letter home as Paul Marsh, Rick Buhman and Nick Nicolle help him to find just the right words to put down. The tent is typical of the living quarters of the Scouts while at camp.

WHY LIVE IN THE PAST?

...when it costs so little to live better electrically

Less than 5¢ worth of electricity will cook three meals for a family of four; dry the laundry; or run the refrigerator for 24 hours.

- Hard to believe? Perhaps. But true, and here's why:
1. Today's electrical servants are the most efficient in history.
 2. Electricity is today's biggest bargain—still priced at 1939 levels.

LOOK AT THE TREND—Electricity does twice as much for you as it did 10 years ago. And 10 years from now, it will do twice as much again.

LOOK AT TOMORROW—You will dry-clean your clothes right in your closet with electrically-produced ultra-sonic waves. You will mow your lawn with a bladeless mower, shop by two-way TV-telephone. And this is only the beginning of the wonderful things to come.

SCIENCE IS DEVELOPING NEW SOURCES OF ELECTRICITY

American industry recognizes that the demand for electrical energy will soon reach staggering proportions—that the future is all-electric.

That is why today, more than ever before, practically all segments of industry are channeling tremendous effort toward one imperative, common objective: to be ready for the all-electric future by improving existing methods and finding new ways of producing and delivering electricity; by increasing the efficiency of electrically operated products; by expanding the many ways electricity can serve mankind.

The electric industry, of course, continues to be in the forefront in this research. And logically so. Electricity is our business.

We have already produced electricity from solar energy, from fuel cells, and from nuclear and other sources.

Whatever the source, electrical energy is limitless, and Southern California Edison will continue to bring you an abundant, dependable supply at the lowest possible rates.

Why be half-electric when the future is all-electric?

When you buy a range, clothes dryer, air conditioner, water heater or home heating—why gamble with the future? Be 100% modern, 100% electric.

When you buy a home, WHY BUY BUILT-IN OBSOLESCENCE? Go all-electric.

Look for this emblem. It will look out for you. When you see the Gold Medallion Home emblem, it means that you've found a total-electric home. It represents tomorrow's living today. And it means an amazing future for you—an all-electric future.

You can live better electrically today.

Why live in the past?
