

Know Your Traffic Laws

Prepared in Cooperation With the
Torrance Police Department

Traffic Box Score (As of August 1)*

Fatalities	6
Injury Accidents	275
Persons Injured	389
Non-Injury Accidents	384

*Box score of all accidents investigated by
Torrance Police Department since Jan. 1, 1961

It would be appreciated if readers would submit questions to this column and each week this column will answer your questions. Please address your cards, letters or phone calls to Lt. Don Nash, Traffic Division, Torrance Police.

During the month of July this year a total of 95 accidents were investigated by your police department which resulted in 44 persons injured, 65 property damage accidents, and 36 injury accidents.

RECENTLY, a horse apparently became frightened, causing it to bolt away from its young rider and run into a vehicle. The horse was killed. Luckily, the driver of the vehicle was not injured.

Torrance, unlike many of its surrounding cities, still has an ample amount of riding stables. Riding trails are off the beaten track of its modern expressways and busy streets; however, some of the younger or inexperienced riders often stray off these backwoods type trails onto or across an expressway or busy intersection, creat-

ing a hazard not only to themselves and their mounts, but to the drivers of motor vehicles as well.

"WHO HAS the right-of-way, the vehicle or the animal and/or its rider?" The Torrance Traffic Division points out that it is the driver of a motor vehicle who is responsible for the safety of any livestock, horse-drawn vehicle, or ridden animal, as enumerated in the California Vehicle Code. Section 21759 V. C. reads as follows:

"The driver of any vehicle approaching any horse drawn vehicle, any ridden animal, or any livestock shall exercise proper control of his vehicle and shall reduce the speed or stop as may appear necessary or as may be signaled or otherwise requested by any person driving, riding or in charge of the animal or livestock in order to avoid frightening and to safeguard the animal or livestock and to insure the safety of any person driving or riding the animal or in charge of the livestock."

DR. DEL JUNCO
Here Next Thursday

Anti-Red Meet Set August 18

Dr. Tirso Del Junco, Cuban-born school mate of Fidel Castro, will be guest speaker Thursday, Aug. 17, at 8 p.m. at Californians For Goldwater, South Bay charter chapter meeting to be held at Smith Bros. Fish Shanty, 4020 Pacific Coast Hwy. Topics of his talk will be "Castro, Russian Agent for 17 Years" and "Will Cuba Start World War III?"

He has resided in the United States since 1949 and now lives in Pasadena with his wife and their four children. He is president of Sociedad Ayuda Cubana Anti-Communist; author of several medical journals, is a member of the Los Angeles County Medical Assn. and on the staff at Queen of Angels, St. Vincent's and St. Joseph's hospitals in Los Angeles. Del Junco is 35 year old.

HE WAS a member of the Cuban Army of Liberation (invasion Bahia De Cochinos) on April 17, 1961, and will be appearing at the Southern California Anti-Communist School at the sports area on the afternoon of Aug. 30.

The public is invited to attend the meeting and learn first hand the dangers of Communism facing us today, states Bill Wilbur, president. This is not a dinner meeting. Social hour begins at 7:15 p.m. For further information call Virginia Jones at FA 8-8858, Phil Le Feuvre at FR 9-6837, or Carol Gordon at FR 1-7048.

If you like the grandeur of a Southern Magnolia, but lack the garden space to accommodate its ultimate size, plant the more dwarf St. Mary's Magnolia. It resembles its larger counterpart in every way except that its blooms are even bigger — the size of a small dinner plate, at least. St. Mary's Magnolia has the quality of blooming earlier in life than the Southern Magnolia, which makes it an all-around better tree for smaller gar-

SC Delegate Attends New York Meeting

Dr. Glenn Wilcox, director of school relations at the University of Southern California, will be a roundtable participant in the eighth Congress of the International Musicological Society in New York, Sept. 5-12.

"The Singing School Movement in the United States" is the subject of the round table in which the USC educator will participate. Irving Lowens of the U. S. Library of Congress will be the chairman.

This is the first time the International Musicological Congress has convened in the United States and the first time in the history of the organization there has been any attention to American music.

Wilcox, who lives at 1107 W. 184th St., Los Angeles, has been named reporter for the round table in which he will act as a participant and will write the official proceedings.

Rezoning Bid Refused by County Board

The Los Angeles City Planning Commission has refused to recommend any change of zone on 203rd St., between Western and Denker Aves. Proposed R3 multiple-dwelling unit zoning had been under consideration.

The result of the Planning Commission's refusal will maintain the present M3 heavy industry zoning on the north side of the street and the M2 light industrial zoning on the south side.

The Commission followed the recommendation of Director of Planning John E. Roberts. He and the City Planner, James A. Moss, conducted a public hearing last July 10 and reported that the residents in the area did not favor rezoning.

The commission will recommend that a 20-foot setback line be established on both sides of the street.

Square Links Will Install New Officers

An installation ceremony at the American Legion Hall, 1109 Border Ave., next unday evening will install new officers of the Square Links Dancing Club. The officers to be installed are: H. W. Fogelberg, president; Alex Reed, vice president; Rosann Furlough, secretary, and Hubert Taute, treasurer.

The dancing group reports the formation of a group of teenage dancers under the direction of George Ingersoll. Hoppy Hopkins is caller for the group and plans an exhibition with the...
