

## Value of Prayer Topic of Free Christian Science Talk Monday

How to cope effectively through prayer with problems of any kind will be explained in a free public lecture by Martin Broones in Redondo Beach next Monday evening, Sept. 25.

Broones, a Christian Science lecturer from Beverly Hills, will speak in the church auditorium, 527 S. Broadway, under the auspices of First Church of Christ, Scientist, Redondo Beach. The subject of his lecture will be "Christian Science: Religion That Heals Through Prayer."

A native of New York City, he was educated at Columbia University and later studied musical composition under John Ireland of the Royal College of Music in London. Be-

sides composing many well-known sacred solos and musical scores for many popular light operas, he organized and was director of the first music department in the motion picture industry for Metro Goldwyn Mayer Studios in Hollywood.

He subsequently became a producer of motion pictures and radio programs, acting also as manager and producer for his wife, Charlotte Greenwood. Active in Christian Science for many years, Broones withdrew from business in 1948 to devote his full time to the practice of Christian Science healing. He became an authorized teacher of Christian Science in 1958.

"There are 35 million fishermen in America, and still the Russians are able to outlie us,"—Russel L. Metz, Owingsville (Ky.) News-Outlook.

## NEW SILHOUETTE, ADDED SAFETY FEATURES MARK 1962 CADILLAC

Beginning its 60th year in the automobile industry, Cadillac presents for 1962 the most complete and competitive line of new models in the division's history, according to Harold G. Warner, Cadillac general manager and vice president of General Motors.

The 1962 Cadillac will be in dealer showrooms across the country on Friday. Local showing will be at Ronald E. Moran Inc., 25 Pacific Coast Hwy., Hermosa Beach.

"A dramatically new silhouette, outstanding engineering achievements and important safety features, new to any American motorcar, are combined in our anniversary automobile," Warner said.

"AS THE RECORDS show, safety always is of prime concern to Cadillac each year. This year is no exception. In fact, in 1962 there is even more emphasis on safety with a new dual braking system and significant lighting developments, both in the front and rear of

the automobile," Warner points out. In this anniversary year, Cadillac is offering 12 models, the same as last year. Five of the 12 will feature a classic new roof design giving an entirely new silhouette to the car and changing the over-all styling personality.

THIS SLEEK and low roof design which reflects the leadership of last year's Fleetwood Sixty Special Sedan appears on the Four-Window Sedan de Ville, the Coupe de Ville, Sixty-Two Coupe, Town Sedan, and Park Avenue Sedan.

Styling and engineering combine to bring exciting new developments to the industry. At the side of the headlamps is a new cornering light, which illuminates the way into a turn at night. The taillight in the rear bumper also is completely new and houses a taillamp, stop lamp, turn signal light and back-up light. Yet under normal daytime operations the exterior lens appears white.

UNQUESTIONABLY the major contribution to safer driving is the new three-way brake system on the 1962 Cadillac, the first of its kind in the automobile industry. Heart of the system is a dual-type power brake master cylinder with a separate piston and brake fluid reservoir for front and rear brakes.

With the parking brake, which again this year can be employed as a true auxiliary brake, the 1962 Cadillac has three separate brake systems in an emergency.

THE RELIABLE 390 cubic inch V-8 engine remains unchanged in specifications with 325 horsepower and a 10.5 to 1 compression ratio. However, it is quieter in operation and has still better durability through selective fittings of all main bearings.

The heater will be standard equipment on all 1962 Cadillacs. Air conditioned cars will be quieter due to the use of a newly designed fan clutch and a smaller, lighter yet higher output six-cylinder Freon compressor.

SEDAN de VILLE FOR '62 . . . Five 1962 Cadillac models feature this classic new roof design as shown here on the four-window Sedan de Ville. From the new front cornering light to the carefully fitted taillamp in the tail fin, the use of chrome is held to a minimum on the sculptured side metal. The 1962 Cadillac line will be shown by Ronald E. Moran Inc. tomorrow.

## Description Of Diets in Speech Win

A rational description of how the dietary habits of people affect their personalities won the trophy for Roger Saunders at the Area 3 finals of the Toastmasters Humorous Speech Contest Saturday evening at the Western Club Cafe in Gardena.

"We are what we eat and by what some people are, their diet must be calamitous," commented Saunders in the speech entitled, "Just Don't Sit There, Boys, Burp Something."

It is easier to live with 150 pounds of curves than with 90 pounds of nerves," was the opinion of runner-up Rudy Hafrenik in "This Business of Dieting."

Other contestants were: Bill Sherman with "It Ain't Necessarily So," "Keep 'Em Laughing" by Tom Parks, and Tony Toth described the value of "Euthusiasm."

Ron Green was awarded the Table Topics Trophy for his extemporaneous account of

"What I will do with my extra leisure when I start working a four-day week." His competitors were: Don Sanders, Bob Goodwin, Neil Campbell and Dr. Sumner Saul.

The governor of Area 3 Toastmasters, Bob White, presided over the contests. Walt Tanner, lieutenant governor of District 51, presented the trophies. Ross Potter was Toastmaster for the evening, while Terry Croskrey performed the duties of the Table Topics Master.
