

Orders for Doppler Set Given Ryan

Ryan Electronics has received a \$633,000 purchase order from Westland Aircraft, Ltd., of Yeovil, England, for Doppler navigation sets.

Westland is installing these sets in its Wessex helicopter. Previously Doppler sets for Wessex have been procured indirectly.

The set is designed primarily as a ground velocity indicator for helicopters. It provides the manual or automatic means for the pilot to maintain his air-

craft in a precise hover under all conditions of visibility.

Completely self contained, the set functions anywhere in the world without reliance on ground stations, wind estimates, or true air speed data. It automatically and continuously measures and displays heading speed, drift speed, and vertical speed.

The Doppler also provides outputs for tie-in with helicopter automatic stabilization equipment, ground position

computing and indicating equipment, and course and distance computing and indicating equipment.

Serving with the Sixth Fleet in the Mediterranean aboard the destroyer USS Ault is C. D. Loyd, commissaryman third class, son of Mr. and Mrs. Clarence D. Loyd of 5520 Towers St.

The Ault recently visited the French Riviera, anchoring in Theoule, France.

School Bus Serves as Family Car

It's a long trip for a Massachusetts family of nine but they are Torrance bound in a school bus which has been converted to a house trailer.

Frank E. Boimilla has been promised a job here after losing his position at Ashland, Mass., where the firm he had been with 27 years went out of business.

Making the trip is Boimilla, his wife and their five girls, Janice 12, Marie 8, Helen 6, Ann 5, Mary 3 and two boys, Frank Jr. 14 and John 10.

Boimilla, a machinist by

trade, removed all but three seats from his bus, installed four beds, some temporary toilet facilities and a portable kitchen. His wife decorated the vehicle's windows with curtains.

Army PFC Louis R. Lee, son of Mrs. Lois L. Lee, 904 Amalpa Ave., recently participated with other personnel from the 7th Evacuation Hospital staff in Checkmate, a NATO tactical training exercise conducted in Germany.

NATO troops from Great Britain, France, Germany and Belgium were involved in the

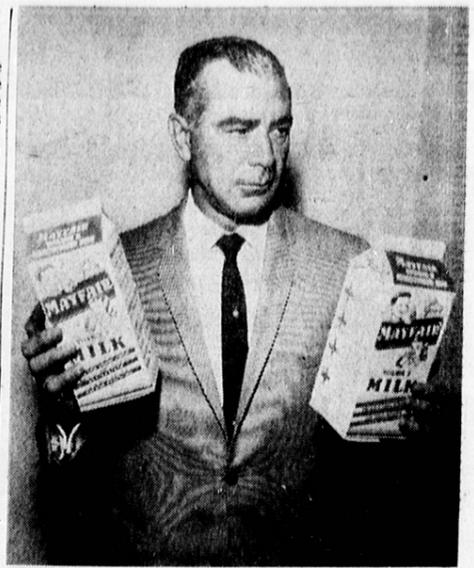

"Although the kids will be out of school for a short time we think the trip across the country will be invaluable as an education," Boimilla says.

Mrs. Boimilla's sister and mother reside in Torrance.

exercise, which was designed to test joint combat operation procedures.

Lee, a medical corpsman at the hospital in Darmstadt, entered the Army in March 1961, completed basic training at Fort Ord, and arrived overseas last August.

The 19-year-old soldier attended Torrance High School.

LAUNCHING PROGRAM . . . C. W. "Tip" Lackey, Mayfair Creamery executive, displays milk cartons carrying the firm's product which will be used in city schools to create a keener awareness of local public facilities among students. Pupils in the schools will match cutouts on the cartons with a huge aerial map to determine locations and functions of other schools, hospitals, police stations, libraries, the post office, and other facilities.

Club Hails Dedication Speeches by Set Today Members

Introductory speeches of unusual quality by two new members highlighted a recent meeting of South Bay Toastmasters Club 280 held at the Redondo Beach Elks Club.

George Hasencamp, Palos Verdes Estates, and Dan Lewand, Torrance, presented "Ice-breaker" speeches to the appreciative members as part of the formal speech portion of the program.

Other speakers were James McDonald and Willard Monahan of Manhattan Beach, John Barton, Torrance, and Thomas Eadie of Hollywood Riviera.

The impromptu table topics session was won by John Barton.

The next meeting of the club will be a combined "Installation - Ladies Night" which will feature the installation of new officers and will welcome the wives of the members as guests.

In keeping with the importance of the occasion, a program of formal speeches will be presented which will demonstrate "Toastmastering At Its Best."

Harbor City Christian School, whose high school and business office are located at 1347 W. 254th St., announces the opening and dedication of its new unit today, 7 p.m. in the dining hall, 840 W. 255th St. just off Pacific Coast Highway and Vermont Avenue.

Dr. Earl Dorrance, Southern California district supervisor for the International Church of the Foursquare Gospel, will be the dedication speaker. The 60-voice choir from the Harbor City Christian School, under the direction of the vice principal, Miss MayBelle Snyder, will be featured along with other special presentations.

THE HARBOR CITY Christian School started in 1948 with one teacher, Mrs. Paul Hazelbaker, and nine students in the Youth Chapel of the Harbor City Foursquare Church, 254th and Belle Porte, without transportation or enlarged facilities. It miraculously grew and today it has five units, plus this new double unit which contains eight spacious rooms, nurse's room, offices, maintenance and choir room. The library which has been limited in the past will now be able to function in its planned program.

THE SCHOOL has some 450 students, 12 buses, 20 teachers, a special remedial room taught by Mrs. Mabel Stemme, who is an expert in this specialized field. The grades taught in the school are pre-kindergarten through high school.

THE REV. Marion Plies, pastor of the Harbor City Foursquare Church and superintendent of the Harbor City Christian School, has been assisted in the work by her husband, George H. Plies, who has been school builder, bus driver and director.

The best in Christian education has been the goal of the school. It is dedicated to reaching, teaching, helping and training the youth of the harbor area through the four R's.

Serving aboard the attack cargo ship USS Washburn, one of 10 ships and other units taking part in Operation Wagon Master, is Richard F. La Rosa, machinist's mate third class, USN, son of Mr. and Mrs. Peter La Rosa of 4240 W. 178th St.

The 10-day amphibious training exercise, which ended Sept. 24, was designed to range through all phases of a modern amphibious operation, beginning with the landing of some 5,500 marines at Northwest Harbor, San Clemente Island, Calif.

Anti-aircraft and artillery support of such a landing received special emphasis.
