Pepperdine College Dean Continuing Sermon Series

"Continuing through its fifth day, the Redondo Beach Church of Christ lecture series has been well received by both members of the church and our neighbors in the community," Dr. Warren S. Jones, minister, announced yesterday.

This lecture series titled "What is Truth" has presented Dr. J. P. Sanders, Dean of George Pepperdine College, minister, and well-known educator.

"WE BELIEVE the church could serve the community in which it exists," Dr. Jones said, "and one of the purposes of this lecture series is to acquaint the community with the Redondo Beach Church of Christ. The presence of so many of our friends and neighbors at this series has been very rewarding," Dr. Jones continued, "and shows a strong interest in New Testament Christianity and man's eternal search for truth."

Dean Sanders, co-founder

and former editor of the "20th Century Christian," a widely circulated Christian magazine, is being presented each evening at 7:30. He is also speaking Sunday morning at the 10:45 worship service.

DURING THE Christ-centered lecture series, Dr. Sanders has presented interesting and enlightening sermons on such topics as "Christian Faith and Modern Knowledge," "The Reality of God and Human Experience," "The Cross — God's Revelation of Truth," as well as other timely subjects.

The public is cordially invited to attend the remaining services of the lecture series each evening at 7:30, Sunday morning at 10:45, and all other services of the church.

Lomita Street Project Voted

Allocation of \$1,600 for the improvement of 250th Street at the Pennsylvania Avenue intersection in Lomita was announced yesterday by Supervisor Burton W. Chace.

Work will be scheduled by the Los Angeles County Road Dept. pending completion of other portions of the current work load, he said.

The improvement will consist of extending the pavement to join recently constructed curb and gutter. In addition, a cross-gutter will be constructed across 250th Street on the west side of Pennsylvania Avenue.

"This roadway improvement project is one phase of work performed by the County Road Dept. in cooperation with property owners who constructed the curb and gutter under permit," Chace said.

Roadway benefits to be derived from the proposed project will be the improvement of drainage conditions, the reduction in maintenance costs, and increased operational efficiency.
