

Gas Company Budget Forecasts Expansion

A capital budget of \$1.1 million to meet anticipated growth and expansion in 1962 over an area that includes Torrance, the Centinela Valley, and South Bay cities has been set by the Southern California Gas Co., according to Southwest division manager G. M. Babbe.

This is part of the gas company's overall capital budget of \$21.6 million to handle costs of additions and improvements throughout the company's system, Babbe said.

"We are continuing to meet responsibilities placed on us by the constant upswing in demands for natural gas service," Babbe stated, "and we are dedicated to doing our part in fulfilling those responsibilities by expanding and up-dating our facilities and services as it becomes feasible."

ALONG THIS LINE, according to Babbe, anticipated growth in the utility's Southwest division will require some 110,000 feet of new gas mains at a cost of \$330,000 with an additional outlay of \$490,000 for services.

The balance of the money allotted to the Southwest division will be used for other

plant and property replacements and additions, Babbe said.

Largest single expenditure in the gas company's overall budget this year is some 11.4 million which will be used to pay for mains, meters and services to supply new customers.

"Benefiting from these new expenditures for replacement of existing facilities, for expansion for new customers, and for procurement of gas to meet this expansion," Babbe said, "are the people of this community and each community served by the gas company."

Richard L. Anderson, seaman apprentice, USN, son of Mr. and Mrs. L. R. Anderson of 108 W. 224th Pl., is serving aboard the attack aircraft carrier USS Hancock, which arrived, Feb. 7, in the Hawaiian Islands en route to join the Seventh Fleet in the Western Pacific.

Upon reaching the islands, the carrier participated in "Operation Readiness" drills off the coast of Oahu.

The vessel is carrying 10 tons of supplies that will be distributed to needy peoples overseas as part of "Operation Handclasp."

Your baby's High-Meat Dinners went to "nursery school"

That's right. Gerber High Meat Dinners were taste-tested by a panel of 4500 babies... right in their own homes. Of two recipes submitted, the babies picked the one they liked best. Before they were nursery-tested, however, Gerber High Meat Dinners were 2 years in the making. (Gerber Researchers are ever so painstaking.) Actually 72 different formulas were prepared and evaluated to arrive at the final recipes tested by the babies. The result? Products of unusual flavor interest and high nutritional values.

All Gerber Baby Foods are laboratory and nursery tested like this to insure products worthy of your baby. For when it comes to babies... mothers and Gerber agree... it's quality first.

Babies are our business... our only business!
