

College Locations Sought

Information is being given at the California State Colleges office in Inglewood on how to submit proposals for location of the South Bay State College.

Parties interested in proposing site locations have been requested to contact the office of Facilities Planning at Chan-

cellor A. Martial Capbern's headquarters, 2930 W. Imperial Highway, Inglewood. Detailed criteria for submitting formal site proposals to the State College trustees will be given.

College officials said the educational institution must be located in a primary service area that has been carefully

delineated after consideration of certain specific factors which include the potential student population to be served, the potential for development, community interest and support, accessibility to existing and projected transit routes and other pertinent factors.
