Cadillac

When he got the facts... he got the car!

And what are the facts about Cadillac that proved so persuasive?

Well, listen for yourself—and judge for yourself.

Fact Number One. A Cadillac can be unexpectedly modest in original cost. The lowest priced model, for instance, actually costs less than eleven models of other less renowned makes.

Fact Number Two. The price of a new Cadillac includes many important features that are extra on most other cars—including power steering, power braking and Hydra-Matic drive.

Fact Number Three. Cadillac cars are extraordinarily dependable—and remarkably frugal in their use of gasoline and maintenance requirements.

Fact Number Four. Cadillac dealers are especially anxious to welcome new owners to the Cadillac family at this time of the year—and they are in a position to make the step up unusually attractive.

Of course, that's only the frosting on the cake. For the basic temptation remains, as always, the greatness of the Cadillac car itself—a greatness that has this year reflected itself in every phase of performance, craftsmanship... and in every detail of beauty and elegance.

It's a combination that has this year proved irresistible to more motorists than ever before.

Why not visit your nearest Cadillac dealer soon and let yourself be tempted?
