Bruinsma Lauds Stiff Cuba Policy

"The 17th Congressional District did not get the representation it deserves in Washington when its Congressman, as reported by the 'Congressional Record,' voted against a strong policy on Cuba." This was the charge made by Ted Bruinsma, candidate for Congress, as he toured shopping centers in the district yesterday.

"Before adjournment," said Bruinsma, "there was introduced in Congress a resolution to put some teeth into our policy on Cuba. Our Congressman voted against this resolution. He voted to continue the weak policy that had put us behind the eight-ball and would lead us to war if we didn't let Castro and Khrushchev know that we do not intend to give any ground in the fight against communism."

"PEOPLE throughout the 17th District — on the streets and in their homes — have told me they don't understand the situation in Cuba. They were alarmed that our great nation should be pushed around here in our own hemisphere. They wanted a firm policy.

"Each day as more and more administration leaders moved toward a firm policy, our congressman, by his vote, continued to show that he does not recognize the Communist conspiracy for what it is.

"His voting record since 1946 shows a softness toward the Red threat, and I think people in the district are looking for someone who will take a much stronger stand to preserve our peace and security.

"Isn't it foolish to spend billions around the world if we can't even keep our own back yard clean?" Bruinsma asked.
