The Happiness Pill: It's a Good Husband

by Count Marco

There's a difference between being nosy and curious. It's not true that I nose into things, but it is true that I have a natural curiosity about many things, mostly for your sake. For example, my being curious about medicine cabinets pays off in my efforts to help you.

One of the first things I do when invited to someone's home is to sneak a peek into the medicine cabinet of the master bathroom. You'd be surprised how much it tells me about your marriage.

Take the medicine cabinet that has numerous bottles of pills. I know at a glance that you're a chronic complainer, a hypochondriac who is an inefficient housekeeper and a poor wife.

Not only will you dig up all kinds of foolish, imaginary ailments on which you spend valu-

able dollars while you moan in supposed pain to avoid responsibilities, but you then dig up all kinds of complaints about the home and him to keep the scales well balanced.

In this country, it seems, the biggest, bitterest pill of all to swallow is your beast.

When you take to medicine by the shelfload, you can realistically trace the first hint of your illness to a guilt complex that you haven't done the job you agreed to do when you took out that license on him.

It's easy for me to tell just how many times during a year you fall down on the wife's job. I merely look at the different pill bottles and note the dates on the labels. They show me when you had a big decision to

make but preferred supposed pain instead.

Many of you would discover to your everlasting joy and health that if you got off your moaning pillows and took a little interest in what's going on around you, you'd have fewer aches and pains.

Besides, little aches and pains never hurt anyone. You have to have them occasionally to realize how good life is when you don't have them.

Now, I'm not saying that in the case of serious illness you shouldn't follow your doctor's advice. In fact, I advocate regular checkups. But I do maintain the best medicine in the world is your very own beast.

With him, you don't need sick pills, because a good man is no drug on the market, he's your happiness pill. Obviously then, if you take good care of him, not only will you get rid of pain, but think of the shelf space you'll save.
