

YOUR PROBLEMS

by **Ann Landers**

'America Made Great By Foreigners . . .'

Dear Ann Landers: Most of the problems in your column are personal. This problem involves ALL Americans.

Why do we allow foreigners to come to our great country and create problems for Americans? There is only so much room here and so many jobs. We owe it to our own true Americans to take care of them first.

Everyone knows there are at least five million jobless Americans. Plenty of these people are living in slums. The foreigners will work cheaper so they get first crack at the jobs. Is this fair to our own people?

If the foreigners don't like the policies of their respective countries why don't they fight for what they think is right and gain their independence? America did. — A PROUD AMERICAN

Dear Proud: Every now and again I hear from an ignorant malcontent who waves the American flag in an attempt to divert attention from the central problem — his own miserable failure.

Anyone who has ever looked at an American history book knows this country was made great by "foreigners" who came here in search of freedom and opportunity. We all have roots in another part of the world—unless we happen to be American Indians.

In case you've forgotten, the words on the Statue of Liberty read:

"Give me your tired, your poor, your huddled masses yearning to breathe free. The wretched refuse of your teeming shore. Send these, the homeless and the tempest-tossed to me."

Dear Ann Landers: I am one of four college seniors living off campus in a private home. Together we pay \$100 a month for two bedrooms plus kitchen privileges.

During the past few weeks I've been washing and ironing my fiancé's white shirts. He is struggling to get by, as most of us are, and I am helping him out in this way. My fiancé wears four white shirts a week.

The landlady feels that I am running up her electricity bill because of this extra ironing. Instead of speaking directly to me about it she has been talking behind my back. (Continued on Page 18)
