## Bringing Up Baby.

HINTS COLLECTED BY MRS. DAN GERBER, MOTHER OF 5

Most baby sitters today know the fundamentals of baby care but even the most competent ones are only as good as mothers help them to be. Suggestions for successful sitting:

- Sitter should be acquainted with your household—location of light switches, supplies, possible hazards, etc.
- Duties should be made clear from the start, with emphasis on baby care, not household chores.
- Written instructions on special baby duties, feeding, etc. are more reliable than oral ones.
- Snacks and soft drinks for your part-time parent sweeten sitting time.
