New Preway 180 gas dishwashers keep water at a superhot 180° throughout the final rinsing cycle. That's 40° hotter than most home dishwashers...hot enough to meet standards for restaurant dishwashers as specified by the Los Angeles Dept. of Sanitation. Hot enough to kill most harmful bacteria on dishes, glasses and utensils, too. • The Preway 180 works like a wonder. A special rack arrangement

prevents dishes from nesting together. This allows the twin "Hydro-Jet" wash arms to whirl water directly at every dish. Loosened food particles float away. • No need for pre-rinsing, either. Hydro-Jets scrub off dried-on food. Everything comes out perfectly clean and sanitary. • See the automatic Preway 180 gas dishwasher soon in principal Gas Company offices, or at Preway 180 dealers.
