Pacific Mutual Announces Del Amo Center Purchase

Purchase of part of the 70-acre Del Amo Shopping Center in Torrance has been announced by Pacific Mutual Life. The nearly \$7 million deal involves 26.6 acres of land and five-story buildings, but does not include the Sears or Broadway stores located in the center. It is PML's largest single investment in Los Angeles County, outside of its downtown home office, and is the company's first major investment in Torrance.

"We're extremely pleased over the challenge that this new purchase represents," said Lester L. Pando, vice president and manager of PML's real estate department. "Del Amo is one of the nation's finest regional shopping centers and Torrance is already one of the county's largest cities, and certainly holds a great deal of promise."

THE FIVE existing buildings in the center have some 350,000 square feet of floor space and house 35 retail stores and businesses. Sales by these businesses in 1962 amounted to more than \$28 million.

"We anticipate no major change of the operation of Del Amo," Pando said, "but we are planning to complete 19,000 square feet of existing floor space which is presently unfinished."

He also said PML will continue its long-standing policy of working closely with tenants and will lend full support to their Merchant's Assn. and to their promotional programs.

City's Return On Tax Rises

Torrance received \$453,150 as its share of local sales and use tax distributions for the final quarter of 1963. This sum, which resulted primarily from third-quarter sales, was 10.8 per cent higher than that distributed during the comparable period of 1962.

Jan. 31 Filing Deadline for VA Pensioners

Loren Heft, veterans service counselor at the Torrance and Inglewood branches of the Los Angeles County Service office, has advised VA pensioners to return the annual VA income questionnaire by the Jan. 31 deadline to avoid stoppage of pension payments. Persons needing assistance in filling out the questionnaire are urged to contact either the Torrance or Inglewood branch. The Torrance office is open Thursdays and Fridays and is located at 3231 Torrance Blvd. Room 202.

DESIGNED BY Welton Beckett and Associates and developed by Del Amo Estates Co., the center was completed in 1960. It is located on Hawthorne Boulevard between Carson Street and Sepulveda Boulevard and features underground delivery roads to all stores and parking for 5,600 cars. PML is a pioneer in the development of shopping centers, having built one of the nation's first — Capitol Shopping Center in Salem, Oregon — in 1948. The company presently owns and operates centers in Norwalk, Fresno, and Columbus, Ohio. It also has holdings in Compton Center in Compton, Valley Plaza in North Hollywood, Valley Center in Salinas, Buena Ventura Center in Ventura, and Valley Center in Phoenix, Ariz.

Edison Co. Reduces Rates \$7.5 Million

Customers of Southern California Edison Co. will benefit from a reduction in electric service rates totaling about \$7.5 million annually beginning tomorrow.

Authorized by the California Public Utilities Commission this will be the second, and in some cases the third, cut in electric rates during the past year, according to L. E. Jenkins, district manager.

Edison's domestic and general service customers received rate cuts totaling nearly \$2

million last February, and selective cuts were also made in August as a result of the company's regular zoning review. In addition, substantially lower rates were made available last July to large industrial and resale customers.

Jenkins pointed out that part of Edison's latest rate reduction results from a PUC order to local gas companies to reduce the price of natural gas which is sold to Edison for power generation fuel.

Our construction program is worth more than a passing glance.

To be specific, in 1964 it's worth a record \$419 million—up \$7 million from last year. It'll be a big factor in the state's economy. For it will help create thousands of jobs, not only in the telephone industry but in construction and manufacturing, and among all the thousands of suppliers we do business with in hundreds of communities throughout the state.

Actually, this record figure reveals our continued faith in California's economy. Last year, for example, our construction program totalled \$412 million. Over \$215 million worth of goods and services were purchased from over 4,000 California suppliers. We paid \$460 million in wages to telephone people in California and \$126 million in state and local taxes.

By continuing our investment in good, growing telephone service for our present customers and for new residents and businesses moving into the state, we are also helping build a more prosperous California.
