Falcon proves it's America's toughest compact in the rugged Monte Carlo Rallye!

Four Falcons started from Oslo, four from Paris, on routes calculated to be equal in difficulty and length. Weather conditions varied from clear, bitter cold through freezing fog to blinding snow—and the time schedules made no provision for delays. Here a Falcon swirls through a sudden snow shower, testing traction in a practice run.

Falcon entered two classes in Europe's 2,700-mile winter ordeal—won them both and finished 2nd overall out of 299 cars. That's durability!

In the Rallye's five special Alpine sections, Falcon was first overall in four, tied for first in one. That's roadability!

In the Rallye's final test around the Monte Carlo racing course, Falcons were first and second. That's maneuverability!

MONTE CARLO—The 33rd Monte Carlo Rallye started with 299 cars. Some 2,700 miles and 3½ days later,

only 168 were still in the rally when the field struggled into Monaco—but they included all eight of the specially equipped Falcons that originally started!

This eight-out-of-eight record was perhaps more remarkable than the fact that, despite a handicap formula that favored the smallest cars, a Falcon captured second place overall. One car can have luck... but eight have to have total performance. Because the Rallye samples every variety of weather and road conditions the continent can provide, and because it winds up on the most remote byways in the French Maritime Alps, it is a supreme test of all the car's abilities. Falcon steering had to be flawless on glare ice above a 1,000-foot drop. Those fabulous V-8's had to run like dynamos.

The final results in the Monte Carlo Rallye gave Falcon 2nd place overall, 1st in Class 8 of the Touring category, 1st and 2nd in Class 5 of the much tougher Grand Touring category, 1st and 2nd in the final three-lap test on the Monte Carlo circuit. The best finish

by a Valiant was 88th overall. Falcon gained invaluable experience in how to build a car better, make it tougher, sharpen up its total performance. That's the real reason Ford is interested in open competition—and why Ford-built cars have got so much more to show drivers. Drive one and see: it won't have six lights, or a horn you can hear for four miles in stormy weather, or other special rally equipment—but it'll sure surprise you!
