Bringing Up Baby.

HINTS COLLECTED BY MRS. DAN GERBER, MOTHER OF 5

When baby is young about the only discipline you can impose is to establish regular sleeping and eating patterns. But when baby reaches the year-old stage you can begin to regulate his behavior to keep him from getting out of hand. But remember to make sure that your tyke is capable of understanding what you want and why you want it. Remember, too, that good behavior is best taught by example. A toddler learns faster by imitation than by rules he doesn't understand.

Table talk. Toddler table manners should not be stressed until your child is reasonably skillful at handling his spoon. It's hard enough to make a spoon behave without the burden of learning manners at the same time.

Hygiene hint. If you make a special point of washing your toddler's hands before every meal, he'll come to accept this routine naturally. A small towel that he can call his very own adds a sense of pride to the ritual.

Dinner delights for hungry sprites. Gerber Junior High Meat Dinners offer something extra-special in the way of flavor-appeal. First, they have 3 times as much savory, succulent meat as regular vegetable-meat combinations. Second, selected vegetables and sprightly seasoning are deftly added for unusual flavor interest. Good sources of protein and vitamin-A value, these "casserole" dishes provide hearty nourishment in five wonderful ways.

Dept. of utter bliss. Gerber Strained and Junior Fruits are an open invitation to smiles and lip-smacking. Easy to understand why, too. Gerber Fruits are famous for colors that literally sing and flavors as close to Mother Nature's sun-kissed best as you can get them. That's because they're flash-cooked in seconds to preserve true colors and flavors. Flash-cooking also helps protect the precious vitamins that contribute so much to baby's well-being. Ann Landers

(Continued from Page 25) for a wife. You'd constantly keep searching for her mother's traits and Lord help her if you found one — real or imagined.

Dear Ann Landers: We are two red-blooded American boys who attend Michigan State. We would appreciate an answer to this question—in the paper.

Recently you printed an interesting letter. A college guy spelled out the five things he and his buddies disliked most about girls:

1. Falsies
2. Girdles
3. False eyelashes
4. Wigs
5. White lipstick

What we want to know is how does a guy find out about these things without getting his face slapped? — INQUISITIVE BUT TIMID

Dear I. But T.: Since your letter came from East Lansing and not from the New York School For the Blind I would say the answers to at least three out of five of the questions should be perfectly obvious to you. As for the other two — well, they're darned good questions.

Ann Landers' frank and informative new book, "Teen-Agers And Sex" (\$2.95), is now available at your book store.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope.
