

If you keep a list of out-of-town numbers, you'll find calls are put through much faster—often in 30 seconds.

TIPS FOR TOP LONG DISTANCE SERVICE

Ways to save money and minutes on out-of-town calls

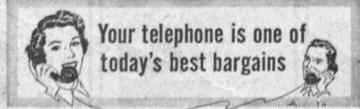

1. Reduced rates begin at six in the evening . . . and between six and seven is a good time to call. Long Distance rates are low. And nights and Sundays are a particularly fine bargain. For \$2.00 or less (plus tax) you can make a station call anywhere in the country. After the first three minutes, time is charged by the minute . . . not as another three-minute period.

3. When you call across the country or across town, you're using a service that's a finer value than ever before. With your telephone, you can reach twice as many people as 10 years ago. You can call more of the people you want to call . . . more can call you. And at rates that make your telephone a real bargain.

3. NAME—if call is for a specific person
