## Forum Series Open Nov. 6

"Magic Mondays in November," popular annual free public start on Monday night, November 6 at 8 o'clock in the Torrance High School Auditorium. On November 6, "Child Growth and Development" will be handled by Walter Rehwoild, Director of Instruction, Torrance Unified school district. Mr. Rehwoild will discuss the stages of the child's development and will show how apparently small matters during early infancy and early childhood have a startling effect on the rest of a person's life. He will tell parents what to look for in the behavior patterns of their children, so that they can alter the child's behavior to result in the most suitable adjustment. Mr. Rehwoild will show how children learn and tell parents what they can do to help their child learn the three R's, the arts, and the social studies. He will discuss the all-important subject of when certain things should be taught, such as skills and behavior patterns. He will present the question of how knowledge of our children has changed our home and school program during the last 20 years. He will discuss the all-important issue of whether or not we are on the right track in our modern approach to the training of children.

Later, "Magic Mondays in November" will include on Monday, November 13, Helen Hefferman, Chief of Elementary Education of the State of California, who will speak on the vital issue of "Home-School Cooperation for Childhood Education." On Monday night, November 20, the "Role of Adult Education" will be brought out by Donald Manshaw, Director of Adult Education, Torrance. Winding up the series on Monday night, November 27, will be Ralph Eckert, Chief of Parent Education of the State of California, who will discuss the problem of "Helping Boys and Girls Grow Up."

These popular forums of special and vital issues are free to all adults, regardless of residence. All forums will be held on a participating basis, so that the audience can ask the experts the answers on its most pressing needs in education today.

## Draperies of Year Are Best In Many a Year

Drapery departments this Fall are featuring the most extensive collection of fabrics for draperies and slip covers in many years. So varied are the patterns and styles as well as the weaves, that there is a pattern exactly right for every room in your home. Among the new prints are adaptations of florals, using a modern technique and many new scenic and landscapes. Patterns tend to small and medium size, with the design so spaced that it is equally effective when draped on a window. Plaids, textures, floral and multi-color stripes, twin prints all are shown in correlated groupings to make selection for draperies and slip-covers easier.

ing higher local taxes. The Retail Merchants Division of the Torrance Chamber of Commerce have also expressed a negative stand concerning Proposition 1. Hull said that according to information received from the County Assessor, \$13,705,200.00 worth of personal property will be eliminated from the tax roll in Torrance by passage of Proposition No. 1. This would amount to nearly a quarter of a million dollars being sliced off of Torrance's school budget. "In order to slice off this amount of money from the proposed Budget for 1950-51, it would be necessary to eliminate such things as the community services, all capital outlay, all transportation of pupils, and cancellation of orders for supplies which have not been received," Hull said. "This is just a rough estimate. We could not employ any more teachers and it would probably mean that many of our classes would get up as high as 50 or 60 pupils before the year is over. "In order to maintain the present standard of the school program, it would require a 75c or 80c tax."
