EDUCATION EXPERT TO SPEAK HERE

Dr. Howard Lane, former head of the Department for the Prevention of Juvenile Delinquency in the city of Detroit, will visit Torrance on Tuesday, December 5, and address a public meeting at the High School Auditorium at 7:30 p.m.

Dr. Lane is being brought to the city through the efforts of the Board of Education and will confer with school personnel during the day.

At the present time, Dr. Lane is on the Education staff of New York University working with teachers in helping them to realize the importance of school experiences to boys and girls in molding good character qualities. This is an unusual opportunity for parents, teachers, and citizens to hear a man of this caliber.

Fern Avenue's Elementary School Chorus will present a group of Christian songs to open the meeting.

Torrance Girl Appointed To U. C. Newspaper

Jo Ferguson of 1619 W. 204th St., Torrance, has been named on the staff of El Gaucho, newspaper published by the students of Santa Barbara College of the University of California, it was announced by Ken Trevey, editor of the publication at Santa Barbara.

Jo holds the position of sports assistant. She is a junior majoring in Elementary Education.

Leaves Camp Cooke

Sgt. Norman Baker, of Torrance, has left Camp Cooke for extensive training at Fort Knox, Kentucky.

Norman was a former employee of the Columbia Steel Company and his parents, Mr. and Mrs. David Baker live at 1518 Amapala.

Telephone service is still a bargain...for since 1940, rates have gone up much less than the cost of living.

GOOD FRIEND OF THE FAMILY BUDGET

The telephone actually takes less of it than in 1940

1. Seems like the prices of most things you buy have about doubled, in the last ten years. Among the standout exceptions is your telephone service. There have been rate increases, of course, to help meet increased costs of furnishing service...higher wages, higher prices for materials, higher costs generally. But telephone rates have gone up far less than most other things. And that's only part of the story.

2. Telephone installers are making your service better all-around bargain, too. When you buy a pound of something, you still get sixteen ounces...although the price may have doubled. Twelve items still make a dozen. But not so with telephone service. You telephone dollars buy, on the average, twice as many available connections as ten years ago...for we've more than doubled the system in that time.

3. Today you can call more of the people you want to call...many more people can call you. And the calls you get are often more important than the calls you make. Yet average telephone rates have gone up less than half as much as the cost of living generally. They're up much less than our costs of providing service. It all comes down to this: Today telephone service can be purchased for fewer hours of work than in 1940. Your telephone is a mighty good friend of the family budget.
