and bugle corps, baton corps, and others, will be given.
Last year's event was witnessed by more people than any other event in the history of the city. This year's parade promises to be bigger and better than ever.

Any local organization, business house, or individual is eligible to participate in the parade, however, all entries must be approved before hand by the parade committee. This year's parade committee is composed of Forrest W. Meyers, band president, James Van Dyck, parade chairman, and Dee Carroll, parade director.
Detailed information may be received by writing to Torrance Area Youth Bands, Box 548, or by calling Torrance 3391-W.

Drale Continues

(Continued from Page One)
rance a logical center for all civic and judicial affairs of the area. Drale declared that ultimately, Torrance will have a population of more than 200,000 persons—greater than the population of the entire balance of the proposed Municipal court district.
"I will not stop now," Drale said. "We can and must get a Municipal court for Torrance, because this is where the biggest

health and safety of their children.

CLEAN-UP STARTS
Meanwhile, the private dump is being "cleaned up" on orders of the County Health Department, and the "city is conforming to County Health Department Regulations" regarding operation of the city dump, City Manager Stevens told the Press.
Councilman Drale said that he will offer his motion to condemn and close the private dump, and to close down the city dump at once at the next City Council meeting, and at every City Council meeting until his motion is seconded, carried and its intent accomplished.
"That dump is not going to operate there for one hour longer than it takes to close down and clean up, as far as I am concerned," Drale told the Torrance Press.

part of the case load originates and this is where it will continue to originate.
"I feel that the convenience of the people involved (the population) should be given uppermost attention, and not the wishes of the politicians maneuvering formation of the court districts."

Baseball Plans To Be Made

A meeting of league directors of the Golden State Junior Baseball League will be held at 8 p.m., Wed., March 28, at the Torrance Recreation office, according to Elmer "Red" Moon, Torrance athletic director.
Plans will be made for the baseball season opening play for which will be in June.

New Softball Rules Announced

A few major changes from last year's rules have been made. They are as follows:
1. A 12-inch ball will be used.
2. New pitching distance is 46 feet. Last year's pitching distance was 43 feet.

THEY BUILT A DAM

A beaver builds a dam as part of his security; wise men build dams against adversity.
A young man and his pretty wife called one evening. She told me, "My husband's salary is small; we would like to have you tell us about Funeral Insurance so we may include it in our budget." Being young the premium were easily absorbed in their budget; they build a dam against adversity. At the other extreme we conducted a funeral for a young man who had been ill for a long time, sapped their savings and she was left destitute. The wisdom of building a dam is obvious.
Call Stone & Myers, Torrance 195, let your budget include Funeral Insurance. It is good husbandry. It is wise. (Adv.)
