

**Bus Triumph Hailed**

(Continued from page one)  
In a letter to the editor, he said:  
"The people of Hollywood Riviera wish to express their thanks and appreciation to The Torrance Press for the wonderful work they did in helping in our fight to restore bus service to our isolated community."  
"We feel that it is largely through the efforts of the Torrance Press in presenting our case before the people that we have been successful."  
"Our sincere appreciation and thanks."

It was pointed out during the fight, that it costs the average home-owner of Torrance only a few cents a year to provide the Hollywood Riviera line, and that the entire deficit of the bus department, running in the neighborhood of \$20,000, costs the average home owner only about 40 cents a year in taxes.  
With good management, the lines eventually will be profitable, it was pointed out. However, municipal services are not intended to make a "profit," but to economically serve the people of the community.

for the year will be slightly below this figure.  
State school support will approximate \$400,000, and it is allocated out of the state sales tax funds.

**STATE BILLS**  
Hull said that the final planning of the budget is dependent upon many factors, such as the carry-over from this year's budget, a \$40,000,000 State Aid Bill now in the State Legislature, and a new A.D.A. bill now in the State Legislature.

Results of the bills in the Legislature will probably not be available until the Legislature adjourns on June 24. He added that it is difficult to turn out a budget until the District knows exactly how much funds it will have to work with.

At the present time, Hull added, the administration is trying to trim \$100,000 off the present estimated budget.

**Dump Complaints**

and dispose of garbage and rubbish alone.

"This doesn't make sense. It's about time we 'cleaned out' the City Hall, if they cannot clean up that dump situation."

Councilman Nick Dralle is the only member of the Council who has been seeking the closing of both the City Dump and the private one adjoining. He has not had any support of other Councilmen. One member of the Council called opponents of the present City Dump "bellyachers" and drew their wrath. This had subsided on the promise of city officials that they are "doing something" about the situation.

However, when the map of proposed dump sites, which City Manager George Stevens said he was preparing for the Council, again did not appear at the meeting Tuesday night, the dump "bellyachers" were provoked into new action, and the "clean out the City Hall" cry ensued.

Shelf. It will include such numbers as the "Dresden Ballerinas," the "Royal Dolton Figures," "Gypsy," "Rose," "Spanish Figurines," the "Pink and Blue Figurine," "Dance of the Coffee Cups," "Dance of the Glass Birds," and many other numbers.  
The third part will be the Military part of the program. Some of the numbers will be "Stars and Stripes Forever," "Toe Tap," "Anchors Aweigh," "Toot Toot Tootsie Good-Bye," "Sailor Hornpipe," and the "Parade of the Wooden Soldiers," and many other tap, ballet, acrobatic and Hawaiian numbers will be presented those evenings.

Tickets are on sale at the Three Arts Dance Studio, 2252 West Carson, or at the box office those evenings.

During the past month a full length colored movie has been made of the 1951 seventh annual dance revue. This film is now in the process of being edited. When the editing and the sound is completed the film will be shown to the public. This showing will be sometime in July when a party will be given for the cast of the revue and friends.

The Three Arts Dance Studio will present numerous Workshops at the studio during the summer, fall and winter. It was announced.

**Bids for Service**

the people should not be double-taxed for any service.

The park and recreation program proposed would involve construction of three large and three small parks in Torrance. Most opponents of the plan expressed the belief that a more moderate and long-range program financed out of the ad valorem tax monies of the city would be better. The recreation department is asking \$42,000 for its program next year, against \$30,000 for this year.

**Army to 'Occupy'**

units will receive actual field training in the program. They would be expected to follow in the event of occupation of an enemy country in time of war.  
2. American civilians will have the opportunity to see firsthand that "military government" does not operate as martial law but rather as supervisors of the government of the occupied country.

For the purposes of the training problem, the nine communities will be spared the earlier phases of combat training, such as occupation by ground troops with its house-to-house fighting, Arnett said.

By the time military government takes over, this phase of the problem will have passed and the nine military government companies will move in to re-establish law and order through supervision of the city officials, he explained.

Torrance, Culver City, Inglewood, Huntington Park, South Gate, Compton, Long Beach and Redondo Beach officials will feel the effect of military government supervision during the three day exercise.

For the purposes of training, some of the officials, including possibly the mayor or the chief of police, may find themselves "suspended" from office while their "friendliness" to the occupation forces is investigated. But at the most none of the officials will be out of a job for long.

Torrance City Manager George Stevens said Torrance city officials plan to get into the spirit of the occasion.  
"We'll give the army complete cooperation," he said.
