

### Smiths Attend Golden Wedding Anniversary

Frank Smith of 1325 Engracia street has just returned after attending the golden wedding of his sister and husband, Mr. and Mrs. S. E. Vise, of Longmont, Colorado.

A highlight of the event was the granddaughter wearing the wedding gown of her grandmother during the service.

### Realtor Changes Office Location

Frances Dimitri, prominent in the real estate and insurance business, this week announced that she is moving her office from its present location to 2276 Torrance Blvd. Miss Dimitri has been in business in this area for the past five years.

She is associated with Gertrude Schwartz—also well-known in this locality, having attended the Torrance schools.

### Easy to Start Newer Lawn

Question: What is the easiest way to have a new lawn without going to the expense or labor of digging up old lawn. I know the method of killing devil grass and unwanted grass through weed killers that are full of poisons, but I don't want any poison in my soil. Furthermore poisoned soil never is quite the same. Please give me the name of something that is not poisonous but will keep down weeds.

Answer: Kill off the grass and weeds with an emulsion that contains no poison, and it does not harm the soil. It is used by expert gardeners. One gallon mixed in water makes three gallons of solution. The material is so harmless to soil that a solution can be poured into a test plot of soil one hour and sown to grass 30 minutes later. It is known in trade circles as "Purple Dragon." Billings Paint Company is owner of the formula.

### DON'T PUNISH CHILD THAT REBELS AGAINST TAKING VITAMIN PILLS

Is your child a vitamin pill neurotic?

Bulletin from Fuller Health Foundation says: "Don't punish your child if he does not like to be dosed with a deluge of pills that look and taste like medicine."

Young medicine takers over a long period of time often have a hidden ill complex."

A half glass of fresh vegetable or fruit juice that looks and tastes like a toothsome treat, often can supply more vitamin and minerals than many pills, Henry Fuller, 336-340 W. Rosencrans, director of the foundation, said.

### Students Slate Tea at 18th St.

Students of the 186th Street School have scheduled a series of "Get Acquainted" teas to promote a stronger spirit of cooperation and understanding between teachers, students and parents. The first tea was given by Mrs. Conklings' kindergarten room on last Wednesday Oct. 17th, and similar teas will continue to be given until every room in the school has entertained.

Room mother chairman of 186th Street P.T.A. have been invited to assist at the student teas.

### May Bring Wasp From India To Control Scale

Two parasitic wasps from India are being studied by the University of California College of Agriculture as a possible biological control of olive scale. A few of the wasps have recently been released in the Fresno area.

Alfred M. Boyce, professor of entomology, Citrus Experiment Station, Riverside, has been collecting parasites of the olive scale in India, Afghanistan, and Pakistan. He is now in Africa.

### Take It Easy, Bud, How You Snip Roses for the Vase

When cutting flowers leave not more than two or three eyes on the remaining stem. Do not snap off roses at the top of the stem. The top eyes are the weakest ones and will then be encouraged to produce more laterals which will not produce large blooms.

ON GUARD  
All damaged or diseased wood should be removed as soon as observed. Be on guard against over-production of canes at the base of the plant.

If not removed the plant will tend to keep producing in this manner and ultimately 10 or 12 of these canes may appear. This will result in an unattractive bush.

OFTEN BRAG  
Over-enthusiastic rosarians often brag that their roses bloom all through the year. But unfortunately these are usually the same individuals who later on complain that their roses are short-lived. You will be wise to let your plants rest a bit during August. Hold off water and food at this time but about Sept. 1 a light application of plant food and more water will pay dividends.
