How to make good telephone service even better...

a time-saving tip... **look up numbers you're not sure of before you call** Have you ever had the feeling you're not quite positive of a familiar telephone number you're about to call? Your memory tells you it's 1338... or is it 3138? If you'll take just a moment to look up the number in the telephone book—jot it down—then call, you'll be sure of the right number. You won't have to make the call a second time... and you'll avoid the embarrassment of calling the wrong number and having a stranger answer.

this free booklet for the local and out-of-town numbers you call most often, is yours for the asking. Just telephone, send a card or drop in to your nearest Pacific Telephone business office.
